MACKIE CONTROL UNIVERSAL PRO

This expandable touch-sensitive control surface features 100mm touch-sensitive optical Penny + Giles motorized faders and V-Pot control over software, plug-in effects and virtual instruments. It has 50 dedicated push-buttons, tape-style transport controls, full meter display with track names and parameters, and quick cursor-style buttons for up, down, left, right and zoom. It uses proprietary Mackie communication protocol and onboard USB MIDI interface for direct connection to Mac or PC and up to 3 additional pieces of external MIDI gear. Software-specific Lexan overlays are included and it's expandable via an optional 8 fader extender and Mackie C4 Pro modules. The C4 allows control of up to 32 parameters simultaneously with four 55x2 character backlit LCDs for visual parameter indication and VPot encoders with integrated push-button and LED rings. Works as a standalone and in harmony with Mackie Control Universal Pro (and Extender). It includes C4 Commander Pro software for control of external MIDI-enabled hardware effects, instruments and other devices.

AVID ARTIST SERIES CONTROL SURFACES

These controllers bring the unparalleled speed, resolution and DAW integration of AVID's high-end pro consoles to the personal studio in a revolutionary ergonomic, slim-line design. Link up to one MC Transport, four MC Mix units and/or an MC Control for up to 36 faders. Control multiple applications and workstations via Ethernet with 250x faster and 8x the resolution of MIDI. They support EuCon, HUI and Mackie Control protocols and use the Studio Monitor Express software. The MC Control features a customizable touchscreen interface, 12 assignable soft keys, 4 touch-sensitive motorized faders, 8 touch-sensitive rotary encoders, and jog/shuttle/zoom wheel and transport controls. The MC Mix features 8 touch-sensitive motorized faders, 8 touch-sensitive rotary encoders, 8 displays for surround metering, parameter and track names. The faders and rotary encoders enable fast access to pan, EQ and plug-ins with clear metering and info displays. MC Transport features a weighted, optically encoded jog wheel and shuttle ring, 7 ergonomic transport/navigation keys with multi-color status LEDs, 6 programmable Soft Keys, 16 numeric keys for time code/marker navigation. All controllers are Mac/PC compatible.
