

PROJECTION CARTS AND STANDS

- The PH 800-1250 and PHT 800-1250 adjust in height in 2" increments from 31.5" - 49.5". Supports up to 70 lbs. Ideal for overhead, LCD and slide projectors. Built in safety rails prevent equipment from sliding off.
- PHT 800-1250 offers a shelf with 15° of tilt for keystone adjustment.
- The height of both the upper and lower shelves of Stand Master I can be adjusted simply and safely with the gas pneumatic spring system.
- The Stand Master II is height adjustable in a continuous movement using a crank.
- Stand Master I and II feature two sturdy wheels for easy moving from location to location.
- The Gigant is a portable folding projector stand that supports up to 100 lbs. Ideal for LCD video projectors. Top platform adjusts down 3° and up 18° to eliminate keystoneing.
