

ikan Director LANC Control

Retail: \$499

Award-winning in design and functionality, the ikan Director combines a LANC control with a high resolution LCD monitor, resulting in the perfect solution for hands-free camera operation.

The ikan Director provides the ability to control Zoom, Focus and Record in addition to giving you a clear handheld production monitor with variable aspect ratio, a port for headphone out, safe area guides, and A/V input. The unit can be powered through either an A/C power adaptor or the internal rechargeable battery.
