CLASSIC VIBE!

Back in 1982, the very first Squier® by Fender® guitars and basses came ringing out of Asia. Known for their excellent vintage-quality look, feel, sound and construction, those early Squier instruments and their Fender branded counterparts are now highly sought-after collector's items revered by guitar enthusiasts as models of "getting it right" while aiming at value-conscious players.

The Squier Classic Vibe Series reflects that simultaneous commitment to excellence, value and 'vibe'. Mirroring classic Fender designs, the Classic Vibe offering is not intended to be era or vintage correct – but rather imparting the 'vibe' of a classic Fender design. Each with distinctive feature set combinations – all adding up to one classic looking instrument. Great sound, vintage looks, unbeatable value – Classic Vibe!

**CLASSIC VIBE PRECISION BASS® '50S:**

When it comes to the early '50s Fender® Precision Bass®, the playing experience is unique both in terms of sound and feel. The larger neck and wider string spacing (1.65") promote strong pocket playing, with a warm, earthy tone that is supportive and inviting. With the new Squier® Classic Vibe '50s Precision Bass®, this unique voice can now be added to your bass arsenal at an amazing value. The beautiful Lake Placid Blue finish over a basswood body is an eye catcher for sure, while its custom 'original' single coil AlNiCo V pickup delivers that old school, '50s P Bass® tone. Open gear tuning machines sit atop a gloss 20 fret maple neck, both solid and stable. Modern refinements such as the flatter 9.5" radius and HiMass 4 saddle bridge make this bass more user friendly in terms of set up and playability. A winner with killer looks and a unique voice!
