

Key Features

- 7.1 Channel A/V Receiver (105W x7 @ 8 ohms 1kHz 1% THD)
- 6 HD Inputs (3 Active HDMI and 3 Component Inputs)
- Blu-ray Audio Decoding (Linear PCM Only)
- Wireless Multi-Room Audio Ready (S-Air™ Ready)¹
- Satellite Radio Ready (Sirius Radio Ready)
- Quick Speaker Set Up (Digital Cinema Audio Calibration)
- Multi Function Audio Port (DIGITAL MEDIA PORT)
- One Touch Play (BRAVIA® SYNC)²
- Supports 24p True Cinema™³

Key Technologies

HD input x 6 Get versatile HD connection options with six HD inputs. Three HDMI™ inputs (up to 1080/60p capable) let you connect a Sony® PlayStation® 3 entertainment system, Blu-ray Disc™ player, or any other HDMI-capable equipment and get uncompressed digital video and multi-channel digital audio on a single cable per device². Three HD component inputs provide added HD-capable connectivity and added versatility.

Blu-ray Disc™ Audio Decoding Supports Linear PCM (an enhanced audio format) via HDMI™ input, capable of reproducing high definition sound with 7.1 channels of discrete audio so you can enjoy uncompromised audio.

Wireless Multi-Room Audio (S-Air™ Ready) Share music from room to room with ease. Simply "plug and listen" with the optional S-Air transmitter and the AirStation client (each sold separately); you can instantly listen to your favorite music in another room or in multiple rooms¹.

Satellite Radio Ready (Sirius Radio Ready) A world of digital radio is at your fingertips. Connect the optional accessory antenna (sold antenna), sign up for Sirius service (fees apply) and enjoy the variety of digital radio with the superior sound quality of an A/V receiver².

Quick Speaker Set Up (Digital Cinema Auto Calibration) Simply place the included microphone in your listening position, push a single button and speaker placement, distance and delays are automatically adjusted. Your ideal listening experience is only a button away.

Multi Function Audio Port (DIGITAL MEDIA PORT) The Digital Media Port allows the use of an optional Digital Media Port cradle (sold separately) to connect compatible digital devices directly to your Sony® A/V receiver.

One Touch Play (BRAVIA® Sync) BRAVIA® Sync capability utilizes the HDMI™ CEC function to reduce the hassle and time consuming job of powering up and routing signals to your home theater components. With the simple push of one button on the remote, the BRAVIA® Sync feature powers on and selects the appropriate inputs for your BRAVIA HDTV and HDMI-connected A/V components.³
