

IN-WALL™ RECESSED CAMERA MOUNTING SYSTEMS

Recessed Camera Mounting Systems for Vaddio™ WallVIEW Systems and Sony®, Polycom®, TANDBERG® and LifeSize® PTZ Cameras

The Vaddio IN-Wall camera mounting systems are an attractive way to mount PTZ cameras where room aesthetics are critical. These mounts use the depth of the wall cavity to recess the camera into the wall, providing a more finished look to the installation.

The latest IN-Wall systems were carefully designed to fit Sony's EVI-D70, EVI-HD1, BRC-Z700, BRC-H700, BRC-300, Polycom's EagleEye and EagleEye 1080 HD, TANDBERG Precision HD and LifeSize's PTZ Camera. IN-Wall enclosures allow the mounting of Vaddio's EZ Interface Module (EZIM) series of CAT-5 cabling systems that are used in the Quick-Connect PRO and CCU products (for applicable cameras), or the EZ Camera Shoe for the EVI-D70. There are three conduit knock-outs located on top and sides of the wallbox portion of the enclosure.

The in-wall mounting box can be installed during room build-out, and the camera platform and face frame can be added at a later time. All of the parts are powder coated in a white finish, but can be painted to match any décor.

WHAT'S INCLUDED

Each IN-Wall Recessed PTZ Camera Mounting System includes:

- Wall Box Enclosure for the Camera
- Face Frame
- Camera Platform
- Mounting Hardware
- Documentation
(Camera not included)

Supported Camera Systems

The IN-Wall Enclosures are available for the following camera systems:

- Vaddio WallVIEW 70, WallVIEW PRO and WallVIEW CCU HD1, 300, Z700 and H700
- Vaddio WallVIEW PRO EagleEye and EagleEye 1080 HD
- Sony EVI-D70, EVI-HD1, BRC-300, BRC-H700 and BRC-Z700
- Polycom EagleEye and EagleEye 1080 HD
- TANDBERG Precision HD
- LifeSize Camera

TECHNICAL FEATURES

Deep Back Box Enclosure

The 3-15/16" deep metal wall box uses the maximum depth of a standard 2" x 4" framed wall cavity and minimizes the camera's protrusion into the room.

Cable Management

Each Enclosure is outfitted with three (3) conduit knockouts (2-sides, 1-top) for flexibility and easy access to cabling. The bottom of each wall box and platform has an additional cable slot for running standard cables to the cameras.

IN-Wall Enclosure Part Numbers

Part Number	Compatible Camera Systems
999-2225-012	WallVIEW 70, Sony EVI-D70
999-2225-013	WallVIEW PRO 300, WallVIEW CCU 300, Sony BRC-300
999-2225-014	WallVIEW PRO HD1, WallVIEW CCU HD1, Sony EVI-HD1, WallVIEW PRO EagleEye 1080 HD and EagleEye 1080 HD
999-2225-015	WallVIEW PRO EagleEye, Polycom EagleEye, TANDBERG Precision HD, LifeSize Camera
999-2225-016	WallVIEW PRO H700, WallVIEW CCU H700, Sony BRC-H700
999-2225-017	WallVIEW PRO Z700, WallVIEW CCU Z700, Sony BRC-Z700
