FLEX VIDEO Series –

# FS-V2

## DESCRIPTION

The **Flex Select Model FS-V2** is an ultra slim vertical speaker pair designed to mate with flat panel video displays. It has been designed for applications where the budget allows the use of separate amplifiers external to video displays. Carefully selected drivers are employed with sophisticated filter networks to take full advantage of the reserve power available with separate amplifiers to optimize performance and SPL in a slim profile. Nominal coverage angle is 120° H x 100° V. Configuration per channel includes two 3.5" long-excursion LF drivers and one .75" textile dome HF driver.

### KEY FEATURES:

- ultra slim profile
- custom built to match exact height of flat panel video display
- optimized to work with extra power available with separate amplifiers
- can be combined with optional sub-bass

### APPLICATIONS:

- digital signage / tradeshow
- 2.1 multimedia systems (with sub-bass)
- government / institutional AV
- small / midsize conference suites
- educational / training facilities
