

— Streamline Your Life with Free Apps

The 1,000-plus apps available for the dash™ Personal Internet Viewer deliver the information and entertainment you want – weather, traffic, social networking, music & more – right to your kitchen, bedroom, living room, or office¹.

— 7" (diag.) LCD Touch screen

The WVGA 800x480 LCD touch screen displays crystal clear photos and video from a wide viewing angle, and automatically adjusts the display for an upright or tilted orientation.

— Multi-source Video Content

Access a variety of video services for online music and viral videos, full-length feature movies, and TV shows¹ on the 7" LCD touch screen display².

— Listen to What You Want

Dash™ Personal Internet Viewer is a compact audio multi-tool: listen to Internet Radio out loud with the built-in stereo speakers, or privately by using the headphone jack (headphones not included¹).

— Simple Setup

Connect to the internet quickly and easily through your home or office wireless network.

— Convenience

Stream the web content you choose. It's always on, always fresh, and available at a glance¹.

— Customization

Customizing the dash™ Personal Internet Viewer home screen to fit your own personal needs and style is easy. Simply choose your favorite apps and theme that you want displayed.

— Elegant and Space Saving Design

The compact footprint maximizes counter, bedside, and desktop spaces, and the timeless design blends in with any décor.

— Online Photo Access and Sharing

For a great photo viewing experience, the dash™ Personal Internet Viewer conveniently loads and displays your photos from online services¹ such as Photobucket®, or you can simply view your photos directly via USB. The touch screen user interface allows you to set effects, rotate photos, zoom, and play or pause photo slide shows.

— Access to Content from Sony

Get complimentary access to the best Sony has to offer: movie trailers, minisodes, music videos, game trailers, and celebrity themes¹.

— Easy-to-Use Clock and Alarms

When you enter your zip code, the device automatically sets the time for you. Set up custom alarms, either one-time or recurring, with the option of waking to Internet radio stations, apps, built-in alarm sounds, or your favorite video clip¹.

— USB 2.0 Interface

Access audio, video or photo content stored on mass storage USB devices by connecting to the USB port.
