PT3000

15" Teleprompter

Large enough for the studio, but still useful on location.

New to the Teleprompter line at ikan, the PT3000 is large enough for studio usage, while still retaining enough portability that it could be used on location.

With a 15" VGA AC-powered monitor, the PT3000 offers a large viewing surface along with many of the same features that have made the PT2100 popular.

Kit Includes

Teleprompter Frame, Hood, 15" LCD Monitor, and PrompterPro 2.0 Software.
