

Escort®

Convenient, All-In-One P.A. System With Wheels.

The Escort's 300-watt power amplifier delivers 150 watts to each side, while it's five-channel mixer features four XLR inputs, digital reverb and a five-band graphic EQ with the patented FLS® Feedback Locating System. Speaker stands, microphone and cables included.

Mixer stand sold separately

FLS® Feedback Locating System

Feedback is a potential problem with any room and any sound system, but our patented Feedback Locating System helps you locate and stop the offending frequencies with great precision. At the onset of feedback, an LED will glow above the problematic frequency band. All you have to do is bring down that fader until the LED fades, or the feedback stops. By knowing exactly which frequency band to cut, you can avoid cutting useful audio that is not contributing to the feedback.

Messenger®

The World's Only Complete, Portable Sound System As Convenient As A Briefcase.

At 24" wide and just 24 lbs., the Messenger is completely self contained and sets up in seconds. The Messenger features a robust five-channel mixer with FLS® Feedback Locating System and a 100-watt output that makes it ideal for an endless array of applications, from open-mic performances to presentations and meetings to karaoke.

Split Track Mix™

As featured on the Peavey Messenger portable audio system, Split-Track Mix allows you to adjust the volume of vocals and backing tracks on split-accompaniment recordings, so you can have as much or as little of the original vocals in the mix as you want. Great for churches and karaoke!
