

Introducing Our New Low Cost Multimedia Player

The Video Messenger DV4

The Video Messenger™ DV4 is a powerful marketing and communications tool that lets you schedule and display high impact video, images and PowerPoint® presentations over local and remote Television Screens.

Perfect for Hotels, Restaurants, Hospitals, Senior Care Facilities, Condo & Apartment Complexes, Schools, Government & Corporate Office Buildings, Cable Companies, Community Service Channels and more!

Display messages directly on your television screens or integrate the DV4 into your cable headend, satellite system or CCTV system. Simply add your media, create a playlist and export the project to the DV4.

Your Televisions can now be Digital Displays that serve as Bulletin Boards, Advertising Channels and Mass Notification Networks.

Effortlessly Add Images to Your Presentations.

DV4: Displays jpg Images

Whether straight out of your digital camera or an image you have designed for a special occasion, the DV4 makes it easy to add images to your playlist.

Add PowerPoint Presentations to Your Display.

DV4: Displays PowerPoint Files

If you know how to use PowerPoint, you will be a master producer of your DV4 presentation system. And, the system comes with over 400 backgrounds for you use.

Easily Incorporate MPEG Videos to Increase Impact.

DV4: Can Play MPEG Video

Ads, announcements, training videos can be scheduled on the DV4. And, it accepts the most common formats of MPEG. The system comes with a variety of videos for various holidays through the year.

The DV4 is an industrial grade signage system. This easy to use network device is designed for remote operation, scheduling and management of all media content. It is a dedicated solid state solution that eliminates the hazards of virus infections, system crashes and other limitations of PC-based solutions.

The DV4 is not just a piece of equipment -- It is a Solution!

The DV4 comes with everything you need to be managing your channel in minutes. Just modify your PowerPoint slides and your channel is on the air.

The System includes:

- DV4 Solid State Multimedia Player
- User Interface software
- 4GB CF Card
- External Power Supply
