Bright New LCD Displays
for Signage Use

Main Features

1. High Brightness
2. Slim Design, Light Weight
3. Designed for Professional Use

42-inch and 47-inch 1080p FULL-HD LCD Displays Debut.

Powerful LCD Full-HD Signage for Use in Open Spaces Like Public Transportation and Commercial Facilities

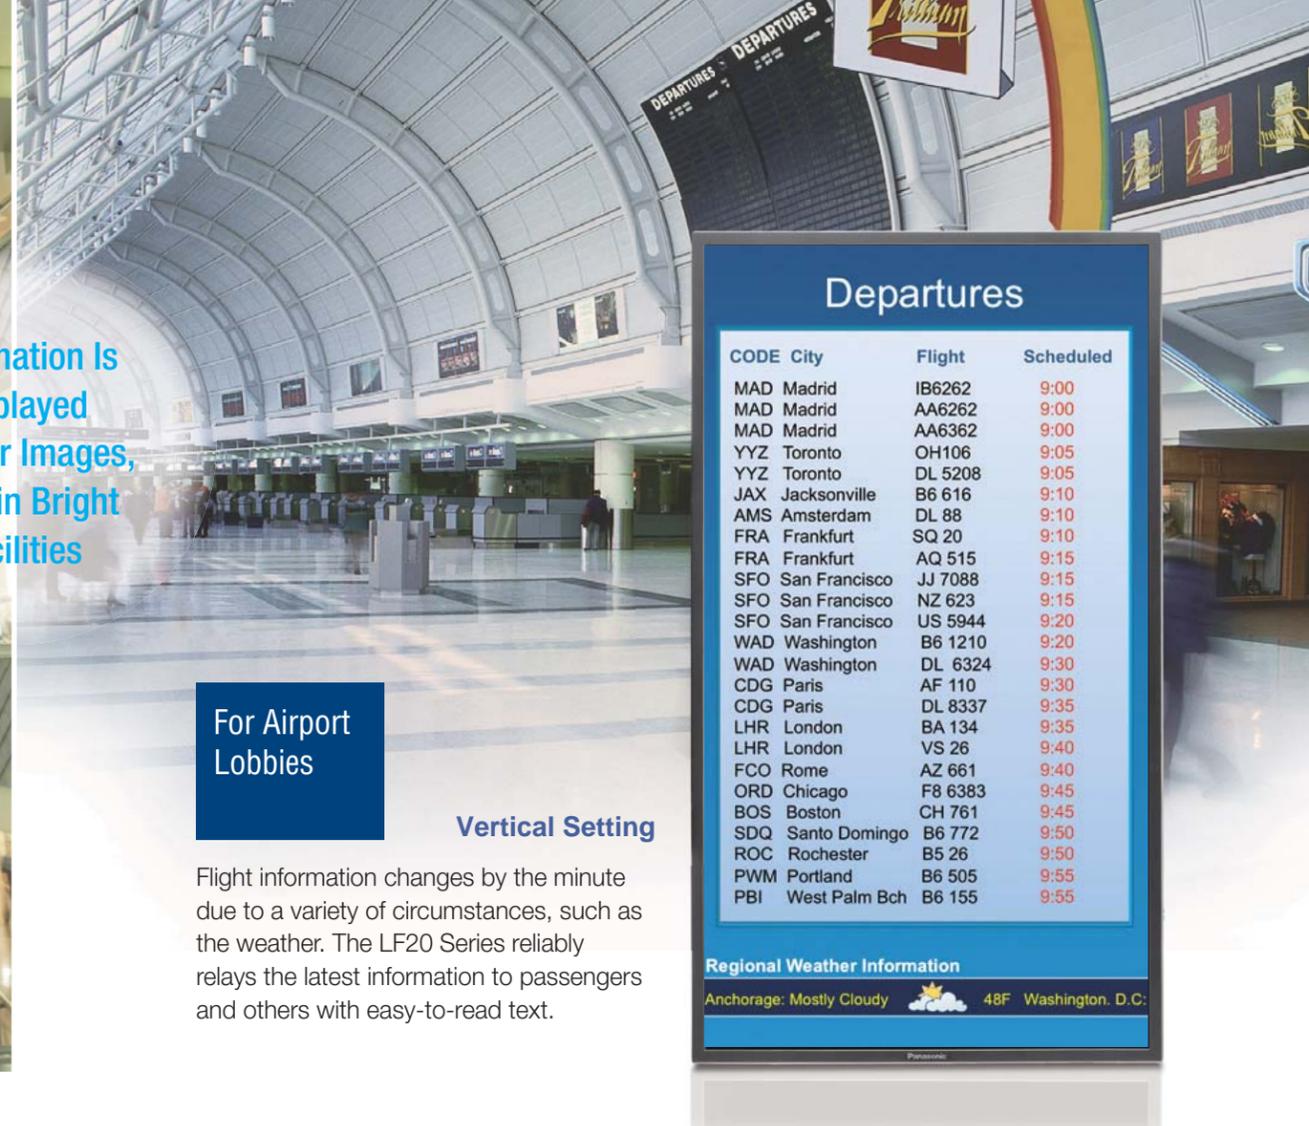

Horizontal Setting

For Large Shopping Malls

These LF20 Series LCD displays have a high level of brightness that accurately conveys information even in bright open spaces like shopping malls. They are also slim and lightweight, so they can be easily installed on walls or ceilings.

Information Is Displayed in Clear Images, Even in Bright Facilities

For Airport Lobbies

Vertical Setting

Flight information changes by the minute due to a variety of circumstances, such as the weather. The LF20 Series reliably relays the latest information to passengers and others with easy-to-read text.

Three Reasons to Recommend the LF20 Series

1 High Brightness – Ideal for open spaces.

These bright, large-screen displays clearly relay information, even in areas with strong external lighting.

- Bright displays
- >> 700 cd/m²

2 Slim Design, Light Weight

Even with their built-in speakers, these large-screen displays have a slim, lightweight design. Their stylish design blends in with any type of facility.

- Narrow bezel
- >> 0.7 inch (18 mm)

- The industry's lowest level of lightness
- >> Approx. 38.8 lbs. (Approx. 17.6 kg) (TH-42LF20U)

- Slim design
- >> 4.0 inches (101 mm)

- Built-in rear speakers
- >> A slim design with no side protrusions.

3 Designed for Professional Use

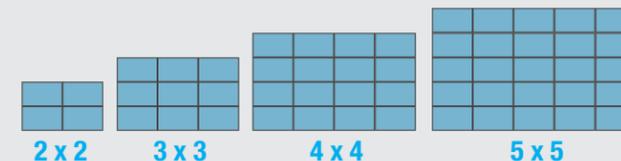

These large-screen LCDs are fully equipped with a wide range of functions to meet professional needs.

- Vertical or horizontal setting possible

>> Content that is best suited to the vertical setting, such as a time table for arrivals and departures, can be clearly displayed.

- Video wall

>> Multiple displays can be used to create a large display. The narrow 18-mm bezel allows stylish images that are not blocked by the bezel.

- Fan-less design

>> Superb dust-resistant features minimise problems caused by pulling in dust.

- Tamper-resistant functions

>> These functions are indispensable for use in open spaces, such as a Control Button Lock for the display.

- Versatile input terminals and RS-232C terminal

- VESA mount interface standard supported

>> VESA-compliant mounting brackets can be used for more flexible installation.
