

ACCESSORIES

Color Kinetics and City Theatrical have teamed up to develop a full line of accessories for popular Color Kinetics professional lighting products, including accessories for ColorBlaze™ 72, ColorBlaze 48, ColorBlast® 12, ColorBlast 6, ColorBurst® 6, ColorBurst 4 and ColorCast® 14. These accessories augment the capabilities of the lighting fixtures, and give the designer and consultant additional choices as to how the light from the fixture is controlled or dispersed. Nearly all of these accessories are available in either painted cold rolled steel for dry use, or aluminum for wet and damp use. Powder coat choices include black, white and bonded aluminum.

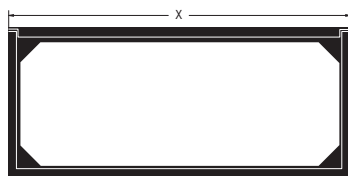

ACCESSORY HOLDERS

Accessory Holders screw to the side of the fixture and allow the user to insert a range of other accessories. Accessory Holders provide a secure mounting platform, prevent accessories from falling out if the unit is tipped or hung upside down, and block any stray spill light from the fixture. Accessory Holders are required for mounting any additional accessories to ColorBlaze, ColorBlast or ColorCast fixtures. Accessory holders can accommodate an assembly of accessories (i.e. lens and top hat). Accessory Holders are not required for ColorBurst fixtures.

ColorBlast 6	6.5"	5.5"	1.2"

* With the exception of ColorBurst, Accessories and Lenses require an Accessory Holder.

TOP HATS

Top Hats serve two important functions: control spill light to a predictable area and prevent the audience or viewers from seeing the bright and possibly distracting source of the light. Top Hats drop into Accessory Holders and are held in place by a flange secured by two screws that also block spill light. White or aluminum Top Hats with black interiors are available on special order. Top Hats are available for ColorBlast 12, ColorBlast 6, ColorBurst 6, and ColorBurst 4.

120-000005-00	TOP HAT FOR COLORBLAST 12 WHITE, DRY

ColorBlast 6	6.4"	5.3"	3.0"
ColorBurst 6	5.25"		3.0"
ColorBurst 4	3.5"		2.0"

HALF TOP HATS

Half Top Hats are similar to Top Hats, but are angled on one side, preventing the viewer from seeing the bright light source, while not restricting the beam on one side. Half Top Hats drop into Accessory Holders and are held in place by a flange secured by two screws that also block spill light. White or aluminum Half Top Hats with black interiors are available on special order. Half Top Hats are available for ColorBlast 12, ColorBlast 6, ColorBurst 6, and ColorBurst 4.

120-000009-00	HALF TOP HAT FOR COLORBLAST 12 WHITE, DRY

ColorBurst 4	3.5"		2.0"

COLORCAST 14 ACCESSORIES

An adjustable mounting base and beam shaper are available for the ColorCast 14 products. The adjustable mounting base allows the unit to be adjusted up to 90°. It is available in either a one-unit or five-unit version. Also available is a beam shaper similar to the barndoor accessory. This accessory must be used with the accessory holder. All are available in either white or black finishes.

120-000036-00	SINGLE UNIT MOUNTING BASE FOR COLORCAST 14, WHITE

120-000039-01	BEAM SHAPER FOR COLORCAST 14, BLACK

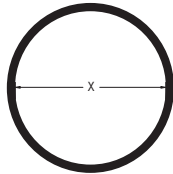

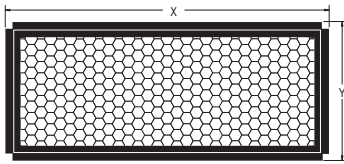

* With the exception of ColorBurst, Accessories and Lenses require an Accessory Holder.

EGG CRATE LOUVERS

Egg Crate Louvers serve a similar function as a Top Hat, but do so in a fraction of the depth. A 45° cut-off is obtained by using cells that are 0.5" deep. Egg Crate Louvers drop into Accessory Holders, and give a sleek appearance to the lighting fixture while providing good beam control. Egg Crate Louvers are available for ColorBlaze 72, ColorBlaze 48, ColorBlast 12, ColorBlast 6, ColorBurst 6, and ColorBurst 4.

120-000013-00	EGG CRATE LOUVRES FOR COLORBLAZE 72 BLACK, DRY	120-000016-02	EGG CRATE LOUVRES FOR COLORBLAST 6 ALUMINUM, DRY

BARNDOORS

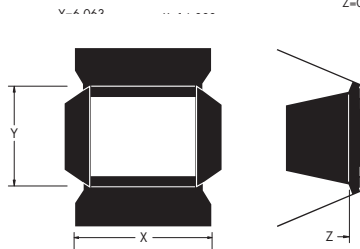

Barndoors provide adjustable beam control. Movable doors can be set to cut off stray beams where needed, such as off of scenery or projection screens. Barndoors drop into the Accessory Holders. Barndoors are available for ColorBlast 12, ColorBlast 6, ColorBurst 6, and ColorBurst 4.

SPREAD LENSES

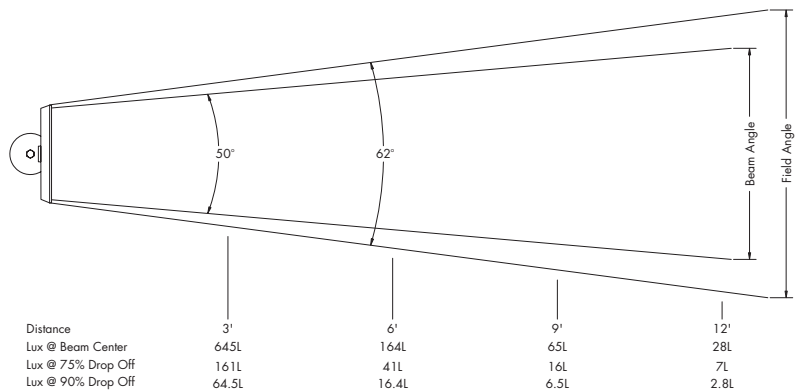

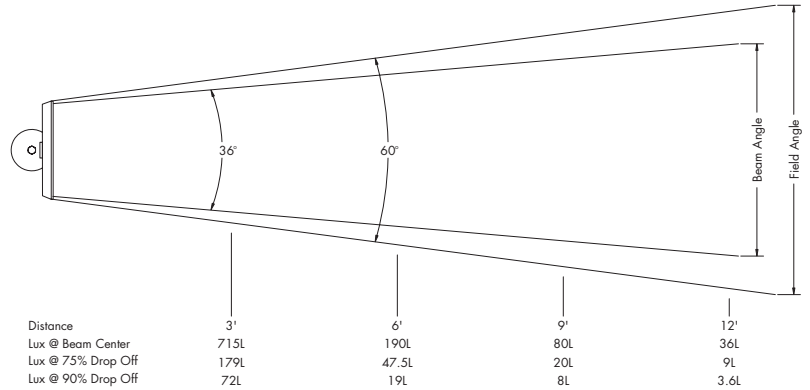

Spread Lenses are available to spread the beam from the standard beamspread of 22°, out to 36° or 50° (horizontal) or 40° (vertical). Horizontal and Vertical Spread Lenses drop into Accessory Holders, and can be used in conjunction with Top Hats and Half Top Hats. Spread Lenses are available for ColorBlaze 72, ColorBlaze 48, ColorBlast 12, ColorBlast 6, ColorBurst 6, and ColorBurst 4. ColorBlaze 72 lens includes 4 panels. ColorBlaze 48 lens includes 2 panels.
