

TechDisc Pro DVD

commercial grade duplication

The Fastest Drives. Period.

High performance duplication starts with fast drives. We use the fastest available and work directly with the drive manufacturers to make sure that our duplicators feature the latest technology.

Commercial Grade Cooling System

The TechDisc Pro™ runs cool with Four Extra Large cooling fans. The 700 series features side and rear cooling for maximum airflow! Even our single target duplicators feature two fans to keep the drives running smooth.

Global Power Supply and Multi-lingual Controller Menu

Built with the strongest power supply in the industry, the TechDisc Pro™ delivers 400 Watts of continuous commercial grade power, and it is 115/230V switchable to work around the world! Even our single target TechDisc Pro™ 100 is equipped with a commercial grade 150W power supply. For your customers around the world we've built in four language options for our controller: English, Spanish, French, and Turkish.

Incredible Warranty Protection

Nobody understands service like Recordex™, and we'll prove it with our 3-Year No Hassle Warranty, which includes free phone support for the lifetime of the duplicator. 1-Year Warranty option offered.

Archive up to 50 DVDs or 250 CDs

Hard drive models ship standard with fast 7200 RPM 250GB hard drives. And, if you need more space for your images, upgrade to our massive 500GB hard drive for double the archive storage.

Rock Solid and Super Stable

The TechDisc Pro™ uses our exclusive commercial grade all steel case with anti-tip stabilizing feet. Unlike most, our feet can even be folded in to save space when multiple units are placed side-by-side.

Simple to Use.

An intuitive user interface that makes first time users feel at ease. Advanced features are explained in detail in the user guide.

Model Depicted: DVD500-1Y, DVD500

Configurations Ranging From One Copy to Hundreds of Copies

From our single-target CopyNow! duplicators to our unlimited expandable 10-target TechDisc Pro DVDX10 you'll find every Recordex is built to the same commercial grade standard.

USBLink	Link to one of the Record Drive to Use as an External Burner.
HD500	500 GB Hard Drive Upgrade (from 250 GB)

Warranty

All models available with either a 1 year warranty or a 3-year limited warranty. Three year limited warranty covers drives for 1 year and all other components including case, power supply, and controller for 3 years. The standard warranty is the 3-year limited. Add a -1Y to any part number to indicate the 1-year warranty. (I.e. Order DVD100 for 3-year warranty, DVD100-1Y for 1-year warranty.)
