

MicTube Duo

STEREO TUBE MICROPHONE PREAMPLIFIER

NATURAL TUBE WARMTH FOR ANY MICS OR INSTRUMENTS.

Add warm, vintage tone to any pair of mics or instruments with the MicTube Duo preamplifier. Ideal for any recording or live setup, the MicTube Duo features an easy-to-use control layout and one of the most classic sounding, lowest-noise vacuum tubes: the legendary 12AX7. Aside from the tube, the MicTube Duo features a minimized circuit path, so it preserves the essence of the signal coming from the microphone faithfully.

FEATURES

- › Tube microphone preamplifier with 12AX7 low-noise vacuum tube for warmth and musicality
- › 20 dB Pads, phase reverses, and 80Hz HPFs
- › Minimized signal path for clarity
- › 48V Phantom Power for condenser mics
- › 1/4" high-impedance DI inputs for instruments
