

# MultiMix 6 Cue

## 6-CHANNEL HEADPHONE AMPLIFIER AND MIXER

**GET YOUR MIX.** The MultiMix 6 Cue headphone amplifier is a universal, multi-purpose mixer and amplifier for rehearsal, studio, and stage headphone, in-ear monitor, and personal monitor mixing. It features six independent high-power stereo amplifiers in one compact rack unit, and delivers maximum audio quality, even at very high and very low volume levels.

The MultiMix 6 Cue enables you to create up to six different mixes for up to 18 sets of headphones or monitors for clear, powerful, precise listening. The MultiMix 6 Cue contains six individual power amplifiers, which drive each channel's connected headphones.
