Ultra Velour

Take the hassle out of specifying draperies for your next rental or purchase with the newest and safest line of drapery fabrics from Da-Lite. The new Ultra Velour line of drapery fabrics is designed and manufactured to meet the demand for inherently flame retardant staging curtains in permanent and rental applications.

Ultra Velour is available in three colors, pewter gray, blue and black; these color tones are designed to compliment most interior decors and staging venues. Ultra Velour colors lend themselves to most professional installations giving the presentation environment a cohesive appearance that does not distract from the presentation or the speaker.

Choose the line of draperies that meets the most stringent fire codes in the U.S. *

Ultra Velour represents the state-of-the-art in flame retardant woven velour for the maximum in safety. The luxurious velour is soft to the touch, offers great drapeability and features long lasting durability.

Save on dry-cleaning with this exclusive eco-friendly washable line of draperies.

Keep your line of Ultra Velour draperies looking great year after year and reduce your cost of maintenance. Ultra Velour is machine washable and holds its color brilliance without dry cleaning. Do you and the environment a favor, specify Ultra Velour for your next event.

High opacity and sound neutral properties enhance any performance.

By its woven nature, Ultra Velour has high opacity which reduces light transmission as well as giving the fabric fabulous sound absorption, providing a more "neutral" sound environment. Ultra Velour also weighs 10 percent less than our conventional drapery fabric, making it less costly to transport and easier to hang.

Put the high performance properties of Ultra Velour to work for your next event and you will receive a standing ovation.

**Da-Lite's Ultra Velour meets the NFPA 701 Standard Methods of Fire Tests for Flame Propagation of Textiles and Films.*
