

Super 70 console for Audient® Zen.

The Super 70 series console enclosure for Audient® ZEN utilizes key attributes of Argosy's large format consoles, but in a compact footprint. Patented console design allows you to place essential outboard gear within the console, eliminating distraction while providing protection for your most vital gear and cabling. Detachable lids mounted with adjustable hinges and full length back access panel provide easy access to utilities and connections. Chassis components are milled from 19-32mm Medite® to provide strength and durability. Argosy Super 70 series console is made in the U.S.A. and is shipped disassembled for easy installation.

Enclosed utility area protects cabling.
