**FOSTEX**

EP-CT1
INSTANT START CONTROLLER

The instant start controller, designated model EP-CT1, is exclusively designed for the Fostex UR-2 stereo memory 1U rack recorder. Connecting the EP-CT1 to UR-2, it will offer the user instant start playback, a highly desired feature in the broadcast environment.

Main features

• Connection to the UR-2 parallel remote (D-sub 25pin) port.

• The EP-CT1 offers 20 instant start points/ locations.

• Storing the memory point is done on the UR-2. Fostex will soon release a dedicated PC editor application software program*. This will offer an easy and highly visible user interface.

■ INSTANT START PLAY EDITOR

UR-2
STEREO RACK MEMORY RECORDER

*The editor software will create List Files in the CSV format for UR-2 to decipher.

Since the EP-CT1 is under development, the specifications and features are subject to be changed.   2009.4.16
