Hush and you might hear the snowstorm fall,
but you won't hear the SW-250.

SW-250 Wireless Control
High Output Snow Machine

Are you looking for snow machine with wireless control? Are you looking for snow machine which can generate higher volume of snow output?If you need either or both of above features for snow machine, then Antari SW-250 is your best solution.

SW-250 is not only a completely digitalized snow machine with on-board DMX and wireless control, but also can create a real blizzard effect.

Compare to its predecessors, S-100II & S-200, its snow output is increased about 250% at maximum.

In addition, timer and volume (1~100% output) control functions allow you to control the snowflakes effect even more accurately.

No doubt. Antari SW-250 is the best answer to all kinds of snow effects requests.

SW-250 Snow Machine Specification
» Power : AC100V/AC120V/AC230V/AC240V,50Hz-60Hz
» Power Consumption : 600W (Min Output) , 1290 W (Max Output)
» Output : 250 ml / min
» Tank Capacity : 5 liters
» Fluid Consumption Rate : 4 min / liter
» Remote Included : W-1 Wireless Transmitter
» Accessory Include : Hanging Bracket
» DMX : On board
» Weight : 12.6 Kg
» Dimensions (mm) : L 554 W 276 H 228

W-1 Wireless Radio Transmitter
» Working Distance : Wireless , up to 50 M.
» Function : Wireless ON/OFF

Liquid
» Optimized for use with Antari Snow Machines
   SL-5: water-based snow liquid for accumulated snowflake effect
   SL-5A: water-based snow liquid for fast disappearing

· Control Panel   · S-250 Effect   · SC-2 Volume Remote(Optional)   · W-1 Wireless Transmitter
