

CLASS A BOOST - USERS GUIDE

Welcome to the realm of Pigtronix!

Your new Class A Boost is a discreet transistor based analog signal booster pedal. This J-FET masterpiece is able to accept instrument or line level signals and boost up to 20db without clipping.

The Class A Boost has warm, clear sound with completely linear frequency response so that the tone of your instrument remains true as it gets louder. The Class A Boost will impart definition and clarity to clean sounds and will increase the power and impact of distortion tones for both lead and rhythm work.

Maximum input before overdrive clipping: 3.3V p-p (+3.5 dbm)

Maximum output before clipping: 8.0V p-p (+11.2 dbm)

Gain range: 0 to 10.5 (+20.4 db)

Frequency response +0, -3 db: 22 Hz to 39 KHz

Input impedance: 500K

DC Power - The Class A Boost comes with a 18VDC @ 300mA neg. tip power supply. It will also work just fine on a standard Boss style 9VDC power supply. The Class A Boost does not take batteries. Total power consumption is under 50mA.

The Class A Boost will play nice with distortion pedals, so make sure to try placing it both before and after your other gain boxes to see which configuration provides the best tone for you.

Pigtronix Limited Warranty:

Your Pigtronix effect pedal comes with a 1 year limited warranty on parts and workmanship. During the warranty period we will repair or replace, at our option, defective parts or pedals free of charge, and return them to the owner. Warranty service does not include damaged, modified, or misused pedals and such pedals will be subject to a standard repair charge.

What you must do: First, contact us directly via email and describe the problem to us. If the problem cannot be resolved we will have you send the pedal directly to us for servicing.

How to contact us for warranty service:

Email: tech@pigtronix.com

Phone: 631-331-PIGS (7447)

Warranty Limitations: This warranty does not cover defects resulting from improper or unreasonable use, accident, unauthorized tampering or modifications; and, warranty shall be considered void if chassis has been opened.

To validate your 1-year, limited warranty, please register your PolySaturator, within 30 days of purchase, on the web at:
