

# Lowell Graphite-Grey Top

## Description:

The LGT is a laminate-covered particleboard top with rubber edge molding that adds an attractive, finished appearance to Lowell rack models LER, LER-F, LPR and LGR (except 36" models). The top is 1" high and features a dark "graphite grey" laminate finish. For most rack models, the LGT installs in the rack's top EIA panel opening (where the top closure panels normally mount). For LPR racks, the LGT mounts to the center-punched indents in the rack's metal top. (Drill through the indents to secure the laminate top.) The LGT is offered in three sizes and includes mounting hardware.

The 1" high LGT-series laminate top adds a finished appearance to 19" wide racks.

## Features:

- 1" high laminate-covered particleboard top with rubber edge molding
- Dark "graphite grey" laminate finish
- Includes mounting hardware (10-32 T-nuts and screws)
- Three sizes for use with Lowell 19"W racks in these series: LER, LER-F, LPR, LGR (except 36" models)
- Made in the USA

## A & E Specifications:

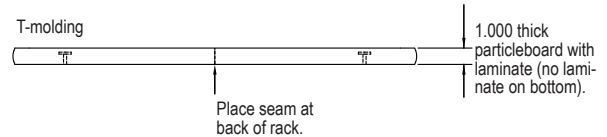

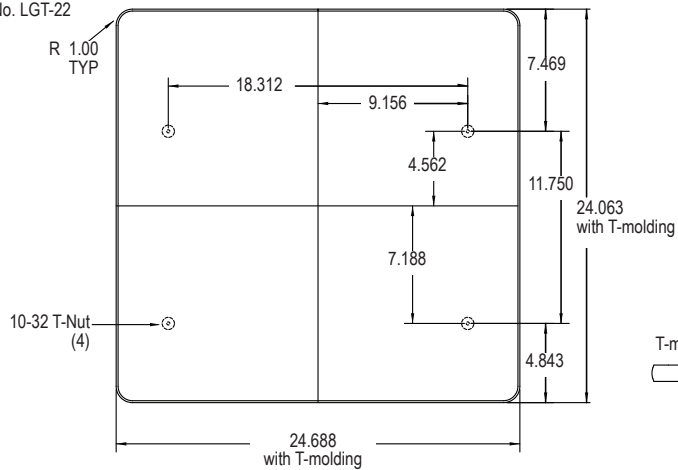

The rack top shall be Lowell Model \_\_\_\_\_. The top shall measure 1"H x \_\_\_\_\_D x 24.688"W. It shall be comprised of particleboard with a graphite grey laminate finish and rubber edge molding.
