

Steel Economy Panel for 19"W EIA racks

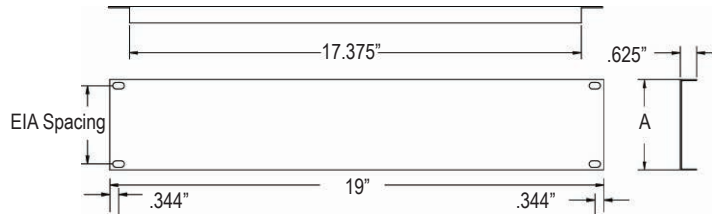

Description:

The economical SEP-series of blank rack panels for 19" wide EIA racks are made with 18-gauge certified US steel and have a 0.625" flange. Panels are finished in a smooth black semi-gloss powder epoxy paint. Available in single units, contractor cartons (6 or 12 panels), and master cartons (48 panels).

Features:

- Composition: 18-gauge US steel
- Style: flanged (0.625")
- Finish: black, smooth semi-gloss powder epoxy
- Single units or multi-pack cartons
- Made in the USA
