

Model: US-series  
**Utility Shelf**

**Description:**

The US-series of steel utility shelves are solid, general-purpose shelves that mount to 19"W racks. They provide sturdy support for non-rackmount equipment such as consumer electronics, power supplies and chassis-style components of all kinds. Shelves are precision-formed from a single piece of 16-gauge, US steel, and include a front and rear flange (.438"H) for added strength and to help keep equipment in place. Smooth black powder epoxy finish.

Front and rear flanges (.438") help keep equipment in place.

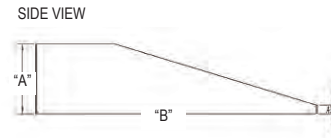

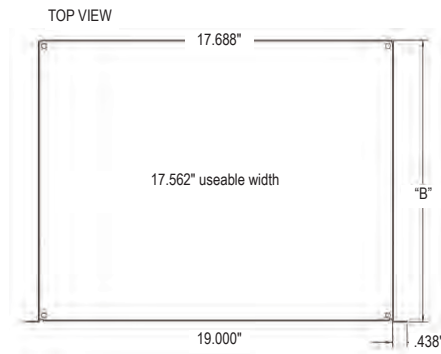

**Features:**

- Rugged 16-gauge, US steel construction.
- Supports up to 50 lbs.
- Available in two depths: 10"D or 14"D
- Available in four heights: 1-4RU
- Smooth black powder epoxy finish.
- Made in the USA

**A & E Specifications:**

The shelf for 19"W rackmount use shall be Lowell Model \_\_\_\_\_. It shall have a depth of \_\_\_\_\_ inches. The shelf shall have a height of \_\_\_\_\_ rack units. It shall be fabricated from 16-gauge US steel and be capable of supporting up to 50 lbs. The shelf shall have a smooth, black powder epoxy finish.
