Microphone

The built-in mic allows you to record voice memos on supported devices and answer and end phone calls. Allows for hands-free capability.

Note: The Westone MICS system works with most smartphones and media devices with a four-conductor 3.5mm plug. Some functions of the MICS system will not work or might not be available for your particular device. For specific information about compatibility with your smartphone or media device please contact your device's manufacturer.
