

D-Cerno-C

Digital Discussion Chairman Unit w/ Fixed Mic 12 in. (30 cm)

Configurations

Digital Discussion
Chairman Unit w/ Fixed
Mic 12 in. (30 cm)

The D-Cerno-C is a chairman discussion unit that comes in a stylish low-profile design but maintains a superior sound quality. The system uses shielded Cat5 cable, and installing the units is extremely simple and worry-free because there is no initialization process and the unit automatically makes adjustments to the detected flow of the signal.

The cable connections are concealed under the unit, maintaining the stylish intent of the system. Using touch sensor technology, the microphone can be simply activated by touching the speak icon. Additionally, the touch buttons allow for effortless cleaning and disinfecting because there are no gaps where dirt and germs could collect.

The chairman unit comes with a "Priority" and "Next-in-Line" button. The shielded microphone is advanced in its interference rejection of GSM devices, ensuring perfect sound at all time.
