GroupSTATION™ PRELIMINARY

Complete Group Collaboration Appliance for Small and Medium Sized Rooms

Image: GroupSTATION Wall Unit

Part Numbers:
998-8900-000 North America
998-8900-001 International

The Vaddio™ GroupSTATION is a complete media collaboration appliance for small and medium meeting spaces. GroupSTATION incorporates all the audio & video functions required for group collaboration in a compact sleek and robust form-factor. This multipurpose appliance is used for local presentations, PC-based Unified Communications, and VoIP conferencing.

Image: MicPOD™ Dock

The GroupSTATION system consists of a table-based MicPOD Dock and a wall-mounted GroupSTATION Wall Unit. The MicPOD Dock functions as the microphones, user interface, and PC dock. Four (4) cardioid microphone elements, each with its own AEC (acoustic echo canceller), provide a 360° pickup pattern for all participants. Vaddio's SmartMic technology ensures that pristine, crystal clear audio is maintained for both local and far-end participants with hands-free, automatic operation. A capacitive touch user interface on the MicPOD Dock provides for dialing, volume and mute along with video controls for zoom, PIP, and a 2-input source selection for complete operator control during a conference. The MicPOD Dock features interfaces for a PC, laptop or tablet, HDMI or VGA inputs to locally extend the PC to the room monitor and a USB 2.0 UVC and UAC compliant connection. Once the laptop is docked, media functions are extended from the PC for room operations.

The GroupSTATION wall unit includes a pair of 2-way loudspeakers with a HD camera in the center. Like the ZoomSHOT™ camera, the GroupSTATION camera has an auto-focus, 19X motorized zoom lens and is directly wired into the main processor in the wall unit. ZoomSHOT can be manually positioned for pan and tilt. The GroupSTATION also includes an HDMI output for the room LCD monitor extending the PC or laptop's screen when docked. A supplied single Cat-6e shielded cable (25-feet) connects the GroupSTATION with the MicPOD Dock carrying power, video, audio, and network making installation a pure breeze.

SYSTEM INCLUDES

GroupSTATION

MicPOD Dock

Cat-6e LINK Cable

The Vaddio GroupSTATION System includes:
One (1) Group-STATION MicPOD Dock Controller
One (1) GroupSTATION Wall Unit
One (1) Premium GroupSTATION Wall Mount and Cable Tray
One (1) Set Mounting Hardware
One (1) 25' (7.62m) Cat-6e Shielded Cable
One (1) 24 VDC Power Supply
