

# ADVANCED STICK CONTROL

## THE NEW AHEAD METRONOME PAD

The new AHEAD Metronome Pad (AMP) from Big Bang Distribution is the perfect practice tool for every drummer. Recommended by teachers and students, AMP combines the benefits of conventional practice pads

and metronomes with the educational advantages of on-board electronics, including a Drum Meter-style stroke counter to measure progress. The interactive AMP helps drummers improve their control, speed,

endurance, flexibility and timing in a variety of standard and odd-meters—making practice more enjoyable and more efficient.

### EASY-TO-READ LCD •

Offers a visual reference to enhance development and increase retention. Functions such as meter, tempo, pulse, rhythm, clock/timer are all displayed.

### GUM RUBBER PAD •

Provides a comfortable playing surface for accurate response with a natural rebound at every dynamic level and technical exercise.

### • AMP CONTROL CENTER

Allows easy adjustment of tempo (30-250 beats per minute) and meter (0-9 subdivisions per measure) as well as selection of preset rhythms, mode, counter, timer and clock.

### ADDITIONAL FEATURES

- Drum Meter-style stroke counter (U. S. Patent #6,545,207)
- Built-in speaker with adjustable volume
- Earphone Jack
- 8mm threaded sleeve for use with cymbal/practice pad stands
- Anti-Skid pad for tabletop use
- Operates on 3 "AA" batteries or (optional) power supply
