PRODUCT LIMITED WARRANTY

USAGE INSTRUCTIONS

Powering It Up!

The WallFlower is a great little plug and play effect light fitted with 48x 5mm R/G/B LED's, and only uses a tiny 8-watts of power while giving off an impressive color chasing display in multiple patterns. Just plug it in and watch it go!

OPERATING MODES

Auto and Sound Active Modes

In auto mode, the WallFlower™ will automatically run through all of its various built-in programs. In sound active mode, it will use its built-in microphone to switch programs to the beat of music. To switch between auto and sound active modes, you will need to insert a non-metallic object, such as wood or plastic, into the hole found on the top of the unit to push the mode switch button found within:

Mode Switch Button

WARNING - Do not use any type of electrically conductive metallic object to push the mode switch button. It is possible that you may accidentally short out or damage internal components. Use a nonmetallic object such as wood or plastic!

Mounting:

On the back side, the WallFlower™ has two mounting holes that are designed to slide and lock onto the head of a standard flat-head screw And for your convenience, 2x double sided mounting tape squares are also included.

Tuck the power cord into the slot on the back of the unit before mounting the fixture onto a flat surface/wall.
