

Offering Miracast™ and advanced network functions, this is a highly versatile Blu-ray 3D™ player. It's compatible with the Yamaha smartphone/tablet control app and Dropbox™, and features a design that is matched to the Yamaha AV Receivers.

Built-in WiFi and Network Features

- Miracast compatibility for enjoying a variety of media from a smartphone or tablet
- iPhone/iPad, Android phone/tablet app control
- VUDU compatibility for video on demand (for USA only)
- Dropbox compatibility for accessing to stored contents
- YouTube Leanback compatibility
- Picasa compatibility for viewing digital photos
- Playback DLNA server (PC or NAS) contents
- Software update capability via network

Video Features

- Supports playback of Blu-ray 3D™, the latest video format
- 1080p/24Hz-compatible HDMI video output
- x.v.Color and Deep Colour compatibility
- Video noise reduction feature

Audio Features

- SACD playback
- HD Audio format bitstream out
- Direct bitstream and multi-channel Linear PCM output via HDMI – Analogue 2-channel down-mixed audio output
- 192kHz/32-bit audio DAC
- High resolution audio 192kHz/24bit FLAC, ALAC file playback compatibility

Advanced Features

- Connect to the Internet to access the fun and informative features that BD-Live™ provides
- BONUSVIEW™ provides Secondary Video and Audio for enhanced commentary and information
- Wide variety media and format support
 - Blu-ray Disc™s, DVDs, SACDs, CDs
 - BONUSVIEW™ and BD-Live™
 - USB
 - DLNA(DMP/DMR)
- Multimedia compatibility:
 - MKV with H.264, MPEG PS, MPEG TS, MPEG-4, VOB, AVI, ASF, WMV, DivX Plus HD, AVCHD (Video)
 - MP3, WMA, AAC, WAV, FLAC, ALAC (Audio)
 - JPEG, GIF, PNG (Picture)
- Playback of JPEG slideshows with MP3 audio sound track

Easy Setup and Operations

- Setup Wizard makes setup easy
- Automatic wireless setup with the WPS (Wi-Fi Protected Setup)
- Software upgrade via network or USB
- Multi-language on-screen display GUI
- Sequential operations of the TV, AV receiver and this Player (HDMI CEC)
- One-touch power on and playback from AV Receiver SCENE button via HDMI CEC
- iPhone/iPad, Android phone/tablet app control

Wireless Direct and Miracast Compatibility Let You Enjoy a Variety of Media from a Smartphone or Tablet

Wireless Direct compatibility means you can wirelessly connect a Miracast compatible smartphone or tablet to play music or videos stored on your smartphone or tablet, or even a game or app on a large-screen TV. Go a step further and connect to your AV receiver for powerful multi-channel sound.

AV Controller App and HDMI CEC Allow Seamless, Convenient Operation with a Yamaha AV Receiver

Cool and easy operation! Use the free AV Controller app (available for iOS and Android) to control the BD player's on/off, play, stop and other basic functions from a smartphone or tablet. The combination of the BD-S677 and a Yamaha AV receiver thus gives you a home theatre system with simple, seamless control. And HDMI CEC compatibility means you can use the AV receiver's SCENE function for automatic on/off and play start.
