

Professional DVD Player **PMD910**

The PMD910 takes up potentially less space than other DVD players and does more. Featuring 3:2 pulldown progressive scan along with Dolby Digital and DTS compatibility, the PMD910 is both NTSC and PAL compatible. In short, it's ideal for corporate and institutional users who demand high-definition picture quality and exceptional sound. Single rack space installation is possible with only a 1/8" bottom clearance on the mid-section (otherwise two rack spaces are needed).

Includes rack kit for one or two rack space installation. One rack space installation is possible only with an additional 1/8" bottom clearance on mid-section. Otherwise two rack spaces are needed. Please see diagram on back of sheet.

Key Features

- NTSC/PAL Conversion
- DVD and Video CD
- Super Video CD Compatible
- DVD-R Compatible
- CD, CD-R, CD-RW
- MP3 Compatible
- MP3 Repeat, Track, and All
- Progressive Scan
- 3:2 Pull Down
- 48 kHz and 96 kHz PCM Audio
- Dynamic Range Control
- A-B Repeat DVD, CD, VCD, SVCD
- Repeat Chapter, Title DVD
- Parental Control and Child Lock

Multimedia Workhorse

The PMD910 displays a wide range of multimedia formats, from DVDs, super video CDs, and custom videos burned to DVD-R and DVD-RW discs to photos and MP3 sound files. Because timing is critical for presentations, the PMD910 provides controls for rapid title, track, and time searches as well as fast file opening. Users can also select A-B points to repeat specific portions of a video.

Exceptional Video and Audio Resolution

This sophisticated player delivers stunning digital video pictures and Dolby Digital and DTS multichannel compatible sound. It boasts 96 kHz/24-bit audio D/A converters and a special 3D sound mode for playback of music CDs and MP3 files.

Custom Set-Up

The PMD910 can be tailored to an installation's requirements. Audio and video output defaults can be changed for bitstream, downmix, dual mono mode, and 96k sampling rates. Video aspect ratios can be set for regular 4:3 or widescreen 16:9. Front key lock prevents unauthorized usage of the player.

Inputs/Outputs

- Optical Digital Output
- Coaxial Digital Output
