# MATERIAL SAFETY DATA SHEET

## SECTION 1 - PRODUCT AND COMPANY IDENTIFICATION

Product Name	:	FLUORESCENT PAINT
		Fluorescent - White (No. 5779) Fluorescent - Red (No. 5780) Fluorescent - Yellow (No. 5782) Fluorescent - Green (No. 5783) Fluorescent - Blue (No. 5784) Fluorescent - Invisible Blue (No. 5785) Fluorescent - Pink (No. 5786) Fluorescent - Gold (No. 5787)
Product Use	:	Paint
Chemical Family	:	Mixture
Supplier's name and address:		
Rosco Laboratories Inc.		
52 Harbor View Avenue Stamford, CT, United States 06902		
24 Hr. Emergency Tel #	:	(800) 424-9300
HMIS Rating	:	*- Chronic hazard 0 - Minimal 1 - Slight 2 - Moderate 3 - Serious 4 - Severe
		Health: 1 Flammability: 0 Reactivity: 0
WHMIS Classes:		
$\overline{\mathbf{T}}$		

# SECTION 2 - COMPOSITION/INFORMATION ON INGREDIENTS

			ACGIH TLV		OSHA PEL	
Ingredients	<u>CAS #</u>	<u>% (weight)</u>	<u>TWA</u>	<u>STEL</u>	PEL	<u>STEL</u>

	SECTION 3 - HAZARDS IDENTIFICATION
	EMERGENCY OVERVIEW
	Blue, No. 5785: Milky, white liquid. May cause skin and eye irritation. No special hazards exist with this product. As ubstance, caution and care will prevent unnecessary accidents and safety problems. Read instructions on label before use.
	***POTENTIAL HEALTH EFFECTS***
Target organs	: None reported by the manufacturer.
Routes of exposure	: Inhalation: YES Skin Absorption: YES Skin & Eyes: YES Ingestion: YES
Potential acute healt	h effects :
Eyes:	Causes eye irritation. May cause conjunctivitis, irritation, and inflammation of mucous membranes. May cause burning sensation, redness and tearing (watering). Possible severe irritation.

FLUORESCENT PAINT

MSDS No.:5770, 5780 Series

MSDS Prepara	tion Date: April 1	, 2012 Page 2 of 12
Skin:		kin. Possible irritation, defatting or dermatitis (rash). Components of the product may be absorbed into the n the skin. May cause central nervous system depression.
Inhalat	concentratio vomiting, diz Other adver	ritation of the respiratory tract. Prolonged exposure to vapors may be harmful to health. If higher ns are inhaled, additional symptoms may include coughing, shortness of breath, headache, nausea, ziness, drowsiness and other central nervous system effects. May cause mucous membrane irritation. se effects: Asphyxia. Severe lung irritation or lung damage, loss of appetite. Sanding and grinding dusts nful if inhaled. Contains particles which may cause lung damage if inhaled in large quantities.
Ingestie	inflammation gastrointesti	ion hazard. This product may be aspirated (inhaled) into the lungs during ingestion. May cause lung May cause mucous membrane irritation. Ingestion may cause symptoms similar to inhalation. May cause nal irritation. Gastrointestinal irritation may include abdominal pain, nausea, diarrhea and vomiting. Other cts: intoxication.
Potential chro	nic health effects	
	:	Prolonged skin contact may defat the skin and produce dermatitis. Harmful by skin absorption. May cause central nervous system depression. Prolonged inhalation of vapors may cause lung damage, including chronic bronchitis.
Medical condit	ions aggravated b	y overexposure
	:	None expected, when used as intended.
Additional hea Potential envir	Ith hazards : onmental effects	None reported by the manufacturer.
	:	None reported by the manufacturer.
		SECTION 4 - FIRST AID MEASURES
Inhalation	:	If breathed in, move person into fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen by qualified medical personnel only. Seek immediate medical attention/advice.
Skin contact	:	Flush with plenty of water. Wash off with soap and plenty of water. Remove and wash contaminated clothing before re-use. If irritation persists, seek prompt medical attention.
Eye contact	:	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If irritation persists, seek prompt medical attention.
Ingestion	:	Call a physician or Poison Control Centre immediately. Do NOT induce vomiting. Guard against aspiration into lungs by having the individual turn on their left side.
Notes For Phy	sician :	Treat symptomatically.

## **SECTION 5 - FIRE FIGHTING MEASURES**

Fire hazards/conditions of	flammability	
	: Not flammable under nor water content.	mal conditions of handling. This product will not burn, due to its
Flammability classification	(OSHA 29 CFR 1910.1200)	
	: OSHA Combustible Liqu	id IIIB.
Flash point	: Not available.	
Flash point Method	: Not applicable.	Auto-ignition temperature : Not available.
Lower flammable limit (% b	y vol.)	Upper flammable limit (% by vol.)
	: Not applicable.	: Not applicable.
Suitable extinguishing med	lia	
	: Dry chemical, foam, carb	oon dioxide and water fog.
Explosion data: Sensitivity	to mechanical impact / static	discharge
	: Not expected to be sens	itive to mechanical impact or static discharge.
Special fire-fighting proced	lures/equipment	
	and impervious clothing.	an approved full-face, self-contained breathing apparatus (SCBA) Water may be ineffective on fire, but may be helpful in cooling o not use a solid water stream as it may scatter and spread fire. If as are preferable.
Hazardous combustion pro	oducts	
	: Oxides of carbon, nitroge	en, and sulphur. Oxygen. Acrid fumes, toxic gases.
Oxidizing properties	: None reported by the ma	nufacturer.

Environmental precautions       Prevent product from entering drains, sewers, waterways and soil.         Environmental precautions       Prevent product from entering drains, sewers, waterways and soil.         Spill response/cleanup       Eliminate all ignition sources if safe to do so. Ventilate area of release. Use only non-sparking tools and equipment in the clean-up process. Contain and absorb spilled liquid with non-combustible, inert absorbent material (e.g. sand), then place absorbent materia into a container for later disposal (see Section 13).         Containment       Should not be released into the environment. Recover free liquid or cover with inert absorbent material and place into appropriate container for disposal.         SteCTION 7 - HANDLING AND STORAGE       Use with adequate ventilation. Avoid breathing vapor or mist. Avoid contact with skin ar eyes. Wash hands thoroughly after using this product, and before eating, drinking or smoking. Avoid breathing of yabeled containers. Containers should be grounder when pouring. Wear suitable protective equipment. Do not reuse empty containers. Do not puncture container. Keep in properly labeled containers. Containers should be grounder when pouring. Wear suitable protective equipment. Do not freeze. Keep container lightly doit when not in use. Store in upright position only. Keep out of the reach of children. Empty product containers may contain hazardous product residue. Store out of direct sunlight.         Storage requirements       Cividizing agents. Acids and bases. Aluminum. Ammonium salts. Other: magnesium, chlorinated rubber.         Special packaging materials       Cividizing agents. Acids and bases. Aluminum. Ammonium salts. Other: magnesium, chlorinated rubber.         <	including self-contained breathing apparatus. Avoid breathing vapors. Wear resistant clobing and boots. Spill response/cleanup Spill response/cleanup Spill response/cleanup Contained and infition sources if safe to do so. Ventilate area of release. Use only non- sparking tools and equipment in the clean-up process. Contain and absorb spilled liquid with non-combustible, inert absorbent material (e.g. sand), then place absorbent material into a container for later disposal (see Section 13). Containment Schould not be released into the environment. Recover free liquid or cover with inert absorbent material and place into appropriate container for disposal. SECTION 7 - HANDLING AND STORAGE Safe Handling procedures : Use with adequate ventilation. Avoid breathing vapor or mist. Avoid contact with skin and eyes. Wash hands thoroughly after using this product, and before eating, drinking or smoking. Avoid breathing of dust created by outling, sanding, or grinding. Sanding and grinding dusts may be harmful if inhaled. Do not reuse empty containers. Do not puncture container. Keep in properly labeled containers. Containers should be grounded when pouring. Wear suitable protective equipment. Do not ingest. Keep out of direct sunlight. Storage requirements : Store in a cool, dry, well-ventilated area. Keep away from excessive heat, open flames, sparks and other possible sources of ignition. Do not ingest. Keep count direct sunlight. compatible materials : Usiding agents. Acids and bases. Aluminum. Armonium salts. Other: magnesium, chlorinated rubber. Section 8 - EXPOSURE CONTROLS AND PERSONAL PROTECTION Yentilation and engineering measures : Use general or local exhaust ventilation to maintain air concentrations below recommende exposure limits. Use explosion-proof equipment. Discharge exhaust only in area awa from ingition sources. Respiratory protection : Uses NOSHA/SHA approved full-face respirator. With an organic vapor cartridge if the recormended exposure limit is eexceeded. In orde		SECTION 6 - ACCIDENTAL RELEASE MEASURES
Spill response/cleanup       Eliminate all ignition sources if safe to do so. Ventilate area of release. Use only non-sparking tools and equipment in the clean-up process. Contain and absorb spilled liquid with non-combustible, inert absorbent material (e.g. sand), then place absorbent material into a container for later disposal (see Section 13).         Containment       Should not be released into the environment. Recover free liquid or cover with inert absorbent material and place into appropriate container for disposal.         Safe Handling procedures       : Use with adequate ventilation. Avoid breathing vapor or mist. Avoid contact with skin ar eyes. Wash hands thoroughly after using this product, and before eating. drinking or smoking. Avoid breathing of dust created by cutting, sanding, or grinding. Sanding and grinding dust may be harmful if inhaled. Do not re-use empty containers. Do not puncture container. Keep in properly labeled containers. Containers should be groundee when pouring. Wear suitable protective equipment. Do not ingest. Keep out of direct sunlight.         Storage requirements       : Store in a cool, dry, well-ventilated area. Keep away from excessive heat, open flames, sparks and other possible sources of ignition. Do not freeze. Keep container flighty dow when not in use. Store in upright position only. Keep out of direct sunlight.         Incompatible materials       : Dividizing agents. Acids and bases. Aluminum. Ammonium salts. Other: magnesium, chlorinated rubber.         Special packaging materials       : Liquid-proof glass, plastic or non-corrodible metal containers are recommended. Skin protection       Wear impervious gloves, such as neoprene or nitrile rubber.         Eye / face protection       Safety glasses with side-shields or chemical splash goggles.         Other protective equipment       Emergency showers and eyewash facilities should be nearby. Depending on conditions use, safety shoes and additional protective clothing may also be necessary.         General hygiene considerations       Wash hands thoroughly after using this product, and before eating, drinking or smoking.	Storage requirements	sparks and other possible sources of ignition. Do not freeze. Keep container tightly close when not in use. Store in upright position only. Keep out of the reach of children. Empty
SECTION 8 - EXPOSURE CONTROLS AND PERSONAL PROTECTION         Ventilation and engineering measures       : Use general or local exhaust ventilation to maintain air concentrations below recommense exposure limits. Use explosion-proof equipment. Discharge exhaust only in area awa from ignition sources.         Respiratory protection       : Use NIOSH/MSHA approved full-face respirator with an organic vapor cartridge if the recommended exposure limit is exceeded. In order to avoid inhalation of spray-mist and sanding dust, all spraying and sanding must be done wearing adequate respirator. Respirators should be selected based on the form and concentration of contaminants in and in accordance with OSHA (29 CFR 1910.134) or CSA Z94.4-02.         Skin protection       : Wear impervious gloves, such as neoprene or nitrile rubber.         Eye / face protection       : Safety glasses with side-shields or chemical splash goggles.         : Emergency showers and eyewash facilities should be nearby. Depending on conditions use, safety shoes and additional protective clothing may also be necessary.	<ul> <li>Liquid-proof glass, plastic or non-corrodible metal containers are recommended.</li> <li>SECTION 8 - EXPOSURE CONTROLS AND PERSONAL PROTECTION</li> <li>Ventilation and engineering measures         <ul> <li>Use general or local exhaust ventilation to maintain air concentrations below recommender exposure limits. ## **SECTION 11 - TOXICOLOGICAL INFORMATION**

	LC₅₀(4hr)	LD	50			
Ingredients	inh, rat	oral	dermal			
None reported	N/Av	N/Av	N/Av			
Toxicological data	: Low order of toxicity for norm	al industrial handling.				
Carcinogenic status	: No components are listed as	carcinogens by ACGIH, IARC, O	SHA or NTP.			
Reproductive effects	: Not expected to have other re	: Not expected to have other reproductive effects.				
Teratogenicity	: Not expected to be a teratoge	: Not expected to be a teratogen.				
Mutagenicity	: Not expected to be mutagenic	: Not expected to be mutagenic in humans.				
Reproductive Effects	: Not expected to have other re	: Not expected to have other reproductive effects.				
rritancy	: Irritating to eyes, respiratory s	system and skin.				
Sensitization to material	: Not expected to be a sensitize	er.				
Synergistic materials	: None reported by the manufa	cturer.				

## **SECTION 12 - ECOLOGICAL INFORMATION**

Environmental effects	:	None known or reported by the manufacturer.
Important environmental chara	act	eristics
	:	None known or reported by the manufacturer.

Ecotoxicological

: No data is available on the product itself.

MSDS No.:5770, 5780 Series Page 5 of 12

 
 SECTION 13 - DISPOSAL CONSIDERATIONS

 Handling for Disposal
 : See Section 7 (Handling and Storage) section for further details.

 Methods of Disposal
 : Dispose in accordance with all applicable federal, state, provincial and local regulations. Contact your local, state, provincial or federal environmental agency for specific rules. Do not puncture or incinerate. Contact waste disposal services.

## **SECTION 15 - REGULATORY INFORMATION**

## US Federal Information:

All ingredients are listed on the TSCA Inventory, or are exempted materials.

SARA Section 313: This material is not subject to SARA notification requirements, since it does not contain any Toxic Chemical Constituents above de minimus concentrations.

### US State Right to Know Laws:

California Proposition 65: To the best of our knowledge, this product does not contain any chemicals known to the State of California to cause cancer or reproductive harm.

### Canadian Regulations:

Canadian Environmental Protection Act (CEPA) information: All ingredients listed appear on the Domestic Substances List (DSL).

Canadian WHMIS Classification: D2B.

This product has been classified according to the hazard criteria of the CPR and the MSDS contains all of the information required by the CPR.

SECTION 3 - HAZARDS IDENTIFICATION						
	EMERGENCY OVERVIEW					
Clear liquid. Punger	Clear liquid. Pungent odor. Causes skin and eye irritation. Harmful if inhaled or swallowed Possible sensitizer. Contains material which can cause cancer.					
	***POTENTIAL HEALTH EFFECTS***					
Target organs	: None reported by the manufacturer.					
Routes of exposure	: Inhalation: YES Skin Absorption: YES Skin & Eyes: YES Ingestion: YES					
Potential acute healt	Potential acute health effects :					
Eyes:	Causes eye irritation. Prolonged or repeated exposure may be harmful to health. May cause conjunctivitis, irritation, and inflammation of mucous membranes. May cause burning sensation, redness and tearing (watering). Possible severe irritation. Contains materials corrosive or severely irritating to the eyes. Temporary vision impairment (cloudy or blurred vision) is possible. Severe irritation, tissue damage, and possible blindness will result from direct contact.					
Skin:	Irritating to skin. May cause mild to moderate skin irritation. Prolonged or repeated exposure may be harmful to health. Possible irritation, defatting or dermatitis (rash). Components of the product may be absorbed into the body through the skin. May cause central nervous system depression.					

FLUORESCENT PAINT

Rosco Laboratories Inc. 52 Harbor View Avenue Stamford, CT, USA, 06902 Phone: (203) 708 8900

MSDS No.:5781

Page 8 of 12

Inhalation:	May cause irritation to upper respiratory system. Prolonged exposure to vapors may be harmful to health. If higher concentrations are inhaled, additional symptoms may include coughing, shortness of breath, headache, nausea, vomiting, dizziness, drowsiness and other central nervous system effects. May cause mucous membrane irritation. Other adverse effects : Asphyxia. Severe lung irritation or lung damage, loss of appetite. Sanding and grinding dusts may be harmful if inhaled. Contains particles which may cause lung damage if inhaled in large quantities.
Ingestion:	Lung aspiration hazard. This product may be aspirated (inhaled) into the lungs during ingestion. May cause lung inflammation. May cause mucous membrane irritation. Ingestion may cause symptoms similar to inhalation. May cause gastrointestinal irritation. Gastrointestinal irritation may include abdominal pain, nausea, diarrhea and vomiting. Other adverse effects : intoxication, acidosis. Possible chemical burns to the mouth, throat and upper gastrointestinal tract. May cause liver and kidney damage.
Potential chronic hea	Ith effects
	<ul> <li>Prolonged skin contact may defat the skin and produce dermatitis. Harmful by skin absorption. May cause central nervous system depression. Prolonged inhalation of vapors may cause lung damage, including chronic bronchitis. Prolonged exposure may result in neurological dysfunction. May cause skin sensitization. Contact dermatitis can result from prolonged overexposure. Allergic respiratory reactions to these materials are characterized by asthma-like symptoms such as chest tightness, wheezing, shortness of breath and coughing.</li> </ul>
Medical conditions aç	ggravated by overexposure
	: None expected, when used as intended.
Additional health haz	ards : Formaldehyde is a potential cancer hazard, a skin sensitizer and a respiratory sensitizer.
Potential environmen	tal effects

	: None reported by the manufacturer.			
SECTION 4 - FIRST AID MEASURES				
Inhalation	: If breathed in, move person into fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen by qualified medical personnel only. Seek immediate medical attention/advice.			
Skin contact	: Flush with plenty of water. Wash off with soap and plenty of water. Remove and wash contaminated clothing before re-use. If irritation persists, seek prompt medical attention.			
Eye contact	: Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If irritation persists, seek prompt medical attention.			
Ingestion	<ul> <li>Call a physician or Poison Control Centre immediately. Do NOT induce vomiting. Guard against aspiration into lungs by having the individual turn on their left side.</li> </ul>			
Notes For Physician	: Treat symptomatically.			

SECTION 5 -	FIRE	FIGHTING MEASURES
BECHON 5-	LINE	FIGHTING MEASURES

Fire hazards/conditions of	flammability	
	: Not flammable under r water content.	ormal conditions of handling. This product will not burn, due to its
Flammability classification	n (OSHA 29 CFR 1910.1200)	
	: OSHA Combustible Lie	quid IIIB.
Flash point	: Not available.	
Flash point Method	: Not applicable.	Auto-ignition temperature : Not available.
Lower flammable limit (%	by vol.)	Upper flammable limit (% by vol.)
	: Not applicable.	: Not applicable.
Suitable extinguishing me	dia	
	: Dry chemical, foam, ca	rbon dioxide and water fog.
Explosion data: Sensitivity	y to mechanical impact / station	c discharge
	: Not expected to be ser	nsitive to mechanical impact or static discharge.
Special fire-fighting proce	dures/equipment	
: Firefighters should wear an approved full-face, self-contained breathing apparatus (SCBA) and impervious clothing. Water may be ineffective on fire, but may be helpful in cooling unburned containers. Do not use a solid water stream as it may scatter and spread fire. If water is used, fog nozzles are preferable.		

Page 9 of 12

# MSDS Preparation Date: April 1, 2012

Hazardous combustion produce	cts	
	:	Oxides of carbon, nitrogen, and sulphur. Oxygen. Acrid fumes, toxic gases.
Oxidizing properties	:	None reported by the manufacturer.

## SECTION 6 - ACCIDENTAL RELEASE MEASURES

Personal precautions	: All persons dealing with clean-up should wear the appropriate protective equipment including self-contained breathing apparatus. Avoid breathing vapors. Wear resistant clothing and boots.
Environmental precautions	: Prevent product from entering drains, sewers, waterways and soil.
Spill response/cleanup	: Eliminate all ignition sources if safe to do so. Ventilate area of release. Use only non- sparking tools and equipment in the clean-up process. Contain and absorb spilled liquid with non-combustible, inert absorbent material (e.g. sand), then place absorbent material into a container for later disposal (see Section 13).
Containment	: Should not be released into the environment. Recover free liquid or cover with inert absorbent material and place into appropriate container for disposal.

	SECTION 7 - HANDLING AND STORAGE
Safe Handling procedures	: Use with adequate ventilation. Avoid breathing vapor or mist. Avoid contact with skin and eyes. Wash hands thoroughly after using this product, and before eating, drinking or smoking. Avoid breathing of dust created by cutting, sanding, or grinding. Sanding and grinding dusts may be harmful if inhaled. Do not re-use empty containers. Do not puncture container. Keep in properly labeled containers. Wear suitable protective equipment. Do not ingest. Keep out of direct sunlight.
Storage requirements	: Store in a cool, dry, well-ventilated area. Keep away from excessive heat, open flames, sparks and other possible sources of ignition. Do not freeze. Keep container tightly closed when not in use. Store in upright position only. Keep out of the reach of children. Empty product containers may contain hazardous product residue. Store out of direct sunlight.
Incompatible materials	: Oxidizing agents. Acids and bases. Aluminum. Ammonium salts. Other: magnesium, chlorinated rubber.
Special packaging materials	: Liquid-proof glass, plastic or non-corrodible metal containers are recommended.

## SECTION 8 - EXPOSURE CONTROLS AND PERSONAL PROTECTION

Ventilation and engineering m	neasures
Respiratory protection	<ul> <li>Use general or local exhaust ventilation to maintain air concentrations below recommended exposure limits. Use explosion-proof equipment. Use non-sparking equipment. Discharge exhaust only in area away from ignition sources.</li> <li>Use NIOSH/MSHA approved full-face respirator with an organic vapor cartridge if the recommended exposure limit is exceeded. In order to avoid inhalation of spray-mist and sanding dust, all spraying and sanding must be done wearing adequate respirator. Respirators should be selected based on the form and concentration of contaminants in air, and in accordance with OSHA (29 CFR 1910.134) or CSA Z94.4-02.</li> </ul>
Skin protection	: Gloves impervious to the material are recommended.
Eye / face protection	: Safety glasses with side-shields or chemical splash goggles.
Other protective equipment	
	: Emergency showers and eyewash facilities should be nearby. Depending on conditions of use, safety shoes and additional protective clothing may also be necessary.
General hygiene consideratio	ons
	: Wash hands thoroughly after using this product, and before eating, drinking or smoking. Wash hands before breaks and at the end of workday.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES			
Physical state	: Liquid.	Appearance	: Clear liquid.

Viscosity	: Not available.		
Special Remarks On Fire Ha	zards		
			duct will not burn, due to its water ing point. Vapors may irritate eyes.

SECTION 10 - REACTIVITY AND STABILITY DATA			
Stability and reactivity	: Stable under normal conditions.		
Hazardous polymerization	: Will not occur.		
Conditions to avoid	<ul> <li>High temperatures. Keep away from excessive heat, open flames, sparks and other possible sources of ignition. Oxidizing agents. Do not freeze.</li> </ul>		
Materials To Avoid And Incompatibility			
	: See Section 7 (Handling and Storage) section for further details.		
Hazardous decomposition products			
: See hazardous combustion products.			

	LC₅₀(4hr)	LD50		
Ingredients	<u>inh, rat</u>	oral	dermal	
Formaldehyde	308 mg/m3/2H (rat), 250 ppm/2H (rat)	100 mg/kg (rat)	300 mg/kg (rabbit)	
Toxicological data	: Low order of toxicity for normal	: Low order of toxicity for normal industrial handling.		
Carcinogenic status	<ul> <li>Contains the following chemical(s) classified as ACGIH Group A2 (suspected human carcinogen): formaldehyde.</li> <li>Contains the following chemical(s) listed as Group I (Human Carcinogens) by IARC: formaldehyde.</li> <li>Contains the following chemical(s) listed as an Anticipated Carcinogen by NTP: formaldehyde.</li> <li>Contains the following chemical(s) listed as a carcinogen by OSHA: formaldehyde.</li> </ul>			
Reproductive effects	: Not expected to have other repr	Not expected to have other reproductive effects.		
Teratogenicity	: Not expected to be a teratogen.			
Mutagenicity	<ul> <li>Contains a chemical or chemicals that may be mutagens. This product contains: formaldehyde.</li> </ul>			
Reproductive Effects	: Not expected to have other repr	Not expected to have other reproductive effects.		
Irritancy	: Eyes, skin, respiratory system and digestive system. Formaldehyde is an eye and throat irritant and acute toxicant.			
Sensitization to material	: Skin and/or respiratory sensitize	: Skin and/or respiratory sensitizer.		
Synergistic materials	: The product contains an ingredient which may enhance the effect of other carcinogens. This product contains: formaldehyde.			
Components of the product m	nay affect the nervous system.			
	SECTION 12 - ECOLOGIC	AL INFORMATION		

**Environmental effects** : None known or reported by the manufacturer.

FLUORESCENT	PAINT	

### Important environmental characteristics

: None known or reported by the manufacturer.

Ecotoxicological

# : No data is available on the product itself.

## SECTION 13 - DISPOSAL CONSIDERATIONS

Handling for Disposal Methods of Disposal : See Section 7 (Handling and Storage) section for further details.

: Dispose in accordance with all applicable federal, state, provincial and local regulations. Contact your local, state, provincial or federal environmental agency for specific rules. Do not puncture or incinerate. Contact waste disposal services.

## **SECTION 14 - TRANSPORTATION INFORMATION**

Regulatory Information	UN Number	Shipping Name	Class	Packing Group	Label
TDG	None	Not regulated.	Not regulated	-None-	$\oslash$
TDG Additional information	None.				
49CFR/DOT	None	Not regulated.	Not regulated	-None-	$\oslash$
49CFR/DOT Additional information	None.				•
ICAO/IATA	None	Not regulated.	Not regulated	-None-	$\oslash$
ICAO/IATA Additional information	None.	<u> </u>			
IMDG	None	Not regulated.	Not regulated	-None-	$\oslash$
IMDG Additional information	None.	1	1		

## **SECTION 15 - REGULATORY INFORMATION**

## US Federal Information:

All ingredients are listed on the TSCA Inventory, or are exempted materials.

SARĂ TITLE III: Sec. 313, Toxic Chemicals Notification, 40 CFR 372: This product may be subject to SARA notification requirements, since it contains Toxic Chemical constituents above their de minimus concentrations. This product contains: formaldehyde.

CERCLA Reportable Quantity (RQ) (40 CFR 117.302): formaldehyde: 100 lb, 45.4 kg.

### US State Right to Know Laws:

California Proposition 65: This product contains a chemical known to the State of California to cause cancer and/or reproductive harm. This product contains: formaldehyde.

### **Canadian Regulations:**

Canadian Environmental Protection Act (CEPA) information: All ingredients listed appear on the Domestic Substances List (DSL).

Canadian WHMIS Classification: D2A, D2B.

MSDS No.:5781

Page 11 of 12

> MSDS No.:5781 Page 12 of 12

MSDS Preparation Date: April 1, 2012

This product has been classified according to the hazard criteria of the CPR and the MSDS contains all of the information required by the CPR.

SECTION 16 - OTHER INFORMATION
