Wireless Shockmount Frequency Chart SM-W76D

1. Adjust the 16 position rotary knob on the rear of the SM-W76 base to change the frequency. A small flat headed screwdriver can be used.

2. Use the chart to set up the DHTR/TRCR Group & Channel to the frequency that corresponds to the SM-76 base.

3. Once the Group & Channel of the receiver is set, press the gray button on the top of the SM-76 base to turn the microphone on.
