

ANY SPOT[®] TRAVELER

TV5X

ALL INCLUSIVE PORTABLE PA SYSTEM

The new TV5X is one of the latest models in the Traveler Series by Galaxy Audio. The Traveler Series is a line of powered speakers with built in batteries. All models in the Traveler Series can be run from either AC or the built in battery.

Most Traveler Series products are configurable to include built in CD/media players, UHF wireless microphones, Bluetooth receiver, or Audio Link Transmitter. Each item is built to order. Travelers are designed to be portable and used in a wide array of applications, like classrooms, churches, meeting rooms, graveside, auctions, among many others.

The TV5X has a built in 40 watt power amplifier with a 5" full range woofer and tone control. The TV5X, like other models in the Traveler Series, can be configured with up to two UHF wireless receivers or a Bluetooth receiver. Each UHF receiver has two different handheld mics and two body pack transmitters to choose from. There is also an optional MP3 player available which can play MP3s from USB or SD card.

The TV5X has a 1/4" mic input with volume control, 1/8" input and output, and 4 bar battery level indicator. The built in Voice Priority, when activated, will lower the volume of the music when it receives a signal from a wireless or handheld microphone. This is convenient as you will not need to adjustment the volume of your music when needing to make announcements.

The TV5X is constructed from durable plastic and can be set on a table top, or on an optional tripod stand. The TV5i has a built in handle and shoulder strap for easy transport. The TV5X weighs 7lbs. An optional carrying bag is available.

- Built in Shoulder Strap
- 2 Wireless Microphones Optional
- One Wired Microphone Input
- Optional Bluetooth Receiver
- Optional Media Player
- Four-bar battery Indicator

Available with TRAVELER BAG
