

StormChaser Skywire™ RGBAW

Lithium-Ion Battery Powered + Built-In 2.4 GHz Wireless DMX!

Meet the StormChaser Skywire™ RGBAW, the fun and versatile 1-meter battery powered LED strip wash / LED pixel fixture that's also equipped with a built-in wireless DMX Skywire receiver! It comes fitted with 240* 10mm Red/Green/Blue/Amber/White LEDs (48 each), has excellent linear color washing abilities and built-in effects such as single and multi-color pixel chase, color change, fade, flow, and strobe in standalone, auto, and two types of sound active modes. Users will really appreciate the control flexibility thanks to its user selectable 5/9 and individual 8-pixel control in 44-channel DMX mode!

The Lithium-Ion internal battery system of the StormChaser Skywire™ RGBAW gives you the ability to operate the fixture without AC power for up to a full 20 hours. The LED illuminated battery power remaining / battery charge progress gauge on the back of the unit gives you quick and easy access to view the current battery power levels!

Intelion Battery PowerAlso on the back side of the StormChaser Skywire™ RGBAW you'll find an IEC Power In connection for direct power input and battery charging, standard 3-pin DMX In/Out jacks, a handy microphone sensitivity knob, the main power and wireless DMX on/off switches, an easy to read 4-button / 4-character LED display control panel, and a removable 1/2-wave wireless antenna. The fixture can stand on, or can be securely mounted in any position using its dual mounting brackets with locking knobs.

With the StormChaser Skywire™ RGBAW, you're getting an affordable, high quality battery operated LED strip light with built-in 2.4 GHz wireless DMX and all the best of features! Two of these fixtures can also can fit perfectly in our StickBag™ carry bags (sold separately) plus room for accessories for easy transport!

Main Features
