

MONSTER BEAM™

The ADJ Monster Beam is a high output moon flower effect that produces very thick beams of light powered by 25 RGBAW (Red, Green, Blue, Amber & White) LEDs. With its exciting built in programs or controlled via DMX, the Monster Beam will make any party come alive with its vibrant colored beams of light. This sound active fixture will make a great addition to any nightclub, bar, roller rink, bowling alley or dj rig.
