

An innovative 200 Watt, multi channel, high gain head, with MIDI, ISF and DPR.

Specification

- 200 Watt, 4 channel (6 modes), valve head
- Built-in DPR power reduction continuously variable down to 20 Watts
- 4 x ECC83, 1 x ECC82, 4 x KT88 valves
- Two ISF equipped tone control sections
- MIDI switching, emulated output, series effects loop

Clean
Bright – ringing Brit Class A.
Warm – crunchy Brit Class AB.

OD1 – high gain, traditional Brit damping.

Crunch
Crunch – medium gain, loose bass response.
Super Crunch – higher gain, tighter bottom-end.

ISF

DPR

Standby
Turn off for 'silent' recording.

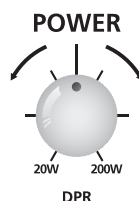

USA to UK in seconds

ISF (Infinite Shape Feature)

ISF works with the Bass, Middle and Treble controls to give you access to infinite new sound possibilities.

Tone tip:

1. Start with ISF set to half way.
2. Adjust Bass, Middle and Treble to taste.
3. Adjust ISF to find your sound (the lower the Mid the greater the effect).

DPR (Dynamic Power Reduction)

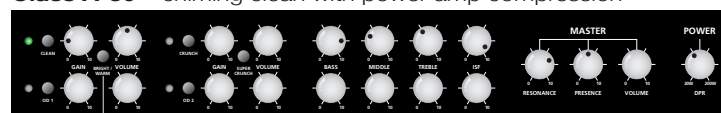

DPR reduces power from 200W to 20W with no loss in tone and reproduces the dynamic response of a small valve amp driven hard.

Tone tip:

1. Using Channel and Master volumes, try different levels of power amplifier drive.
2. For a dynamic response set DPR at full power and control your volume with the channel and master volumes.
3. For a softer, compressed response control your volume by reducing the DPR control, introducing power amp distortion and compression.

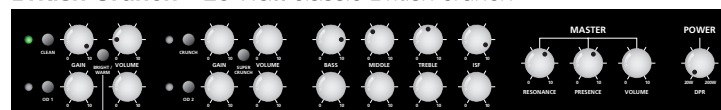

Suggested settings

Class A-30 – chiming clean with power amp compression

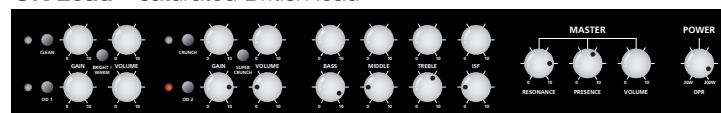

Bright

British Crunch – 20 Watt classic British crunch

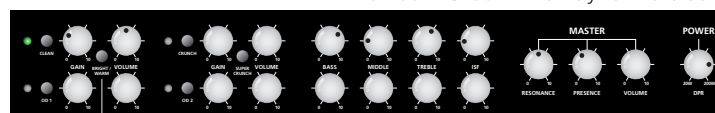

Warm

UK Lead – saturated British lead

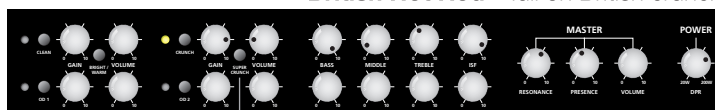

American Clean – full dynamic clean

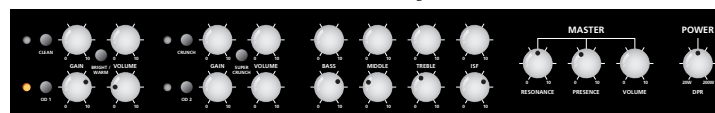

Warm

British Hot Rod – full on British crunch

Super Crunch

American Heavy – saturated American metal
