

Easy Connectivity

It doesn't get any easier. Connect to family and friends on social media, link to Cloud, upload and share effortlessly with Canon's advanced network of options. How much smaller can the world get?

NFC Convenience

NFC automatically launches camera window app on your smart devices so you can view and store photos you've just taken via Wi-Fi. Awesome.

Wi-Fi-enabled

Share images directly uploaded from camera onto Social Network Sites (SNS) or via your smartphone!

Remote Shooting

Remote Shooting

Want to shoot from afar? Use your smartphone to remotely access your camera from a distance.

PowerShot N2
DIGITAL CAMERA

Surrounded by fun. Supported by technology

The best image quality – quick!

Canon's image quality is assured with a responsive CMOS sensor with 16.1 million pixels. From low-light images and enhanced video recording with DIGIC 6, you'll get images you can share with pride.

360° All-round Shutter Ring

For shooting from any angle, any pose

For the unique person that you are, here's a cool, new feature: shutter release ring all around the camera lens, so you can snap shots comfortably from any angle! Even intentionally-slanted compositions are a breeze.

180° Tilt Screen

For truly beautiful self portraits

Let's face it: we're a selfie & wefie generation, so what better way to express it than a flip of your 180° tilt-screen LCD gives you instant access to Self Portrait mode. Here, you can adjust brightness or use the smooth-skin function to get your perfect selfie!

Background De-focus

For the 'be-like-a-pro' feel

Want the professional look but not the effort that goes into achieving beautiful background blur effect? Now, it's super-easy!

Advanced Creative Shot

For the creative artist within you

A single snap intelligently generates 5 Creative Shots (plus one original), using various composition and filter effects.

With advanced Creative Shot (movie) mode, users can select a filter category and record short movie clips. A highlight reel (up to 24 seconds) which the camera pieces together from your 4 movie clips will be automatically generated – using your pre-selected filter category.
