

MTR231

Multi-Pattern Condenser Microphone

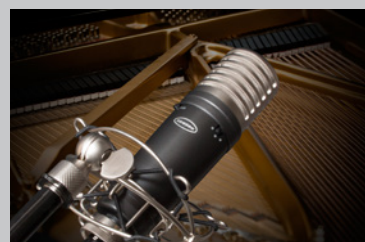

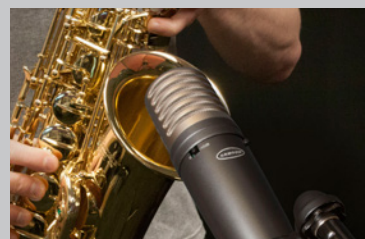

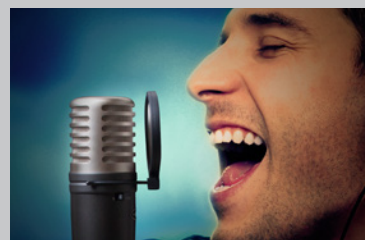

Samson's MTR231 Multi-Pattern Condenser Microphone brings exceptional performance and high-end quality to a variety of live and studio situations. Ideal for recording vocals, close miking instruments, use as a room microphone and more, the MTR231 solidifies Samson's commitment to offering superior sound and the ability to capture the best audio possible.

The MTR231 is a dual large, 1" gold-sputtered diaphragm studio condenser microphone with three selectable pickup-patterns – cardioid, omnidirectional and bidirectional. The MTR231 is capable of handling high SPLs of up to 134dB and features a 10db attenuation switch for handling ultra-high levels. The MTR231 produces a smooth, extended frequency response, as well as low self-noise and a wide dynamic range perfect for recording. In addition, its internally shock-mounted capsule reduces handling noise and external vibrations. This rugged die cast mic is bundled with a pop filter, shockmount and protective carry case.

Sound superior with the new MTR231 Multi-Pattern Condenser Microphone from Samson.
