

# Silverstar “Cocktail-JAM” Hybrid Kit powered by Roland

## Quick Start Guide

This is the Quick Start setup guide for the TAMA Silverstar “Cocktail-JAM” Hybrid Kit. To ensure safe and efficient use of this product, please read through the manual included with each component.

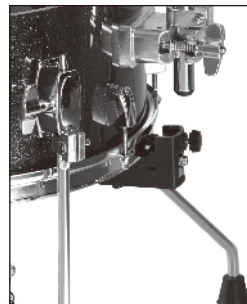

### 1. Assembling the Cocktail-JAM Drum Kit

To assemble the TAMA Silverstar “Cocktail-JAM” drum kit, please refer to the set up manual which is included with the kit.

### 2. Attaching the Triggers and Module

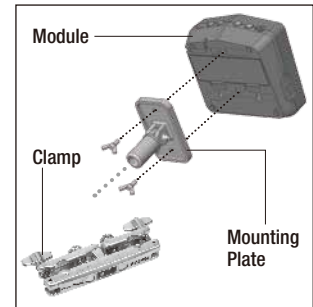

Attach and secure the RT-10T trigger to the hoop of the 16” bass drum, and the RT-10S trigger to the batter hoop of the 12” snare drum.

RT-10T → Bass Drum

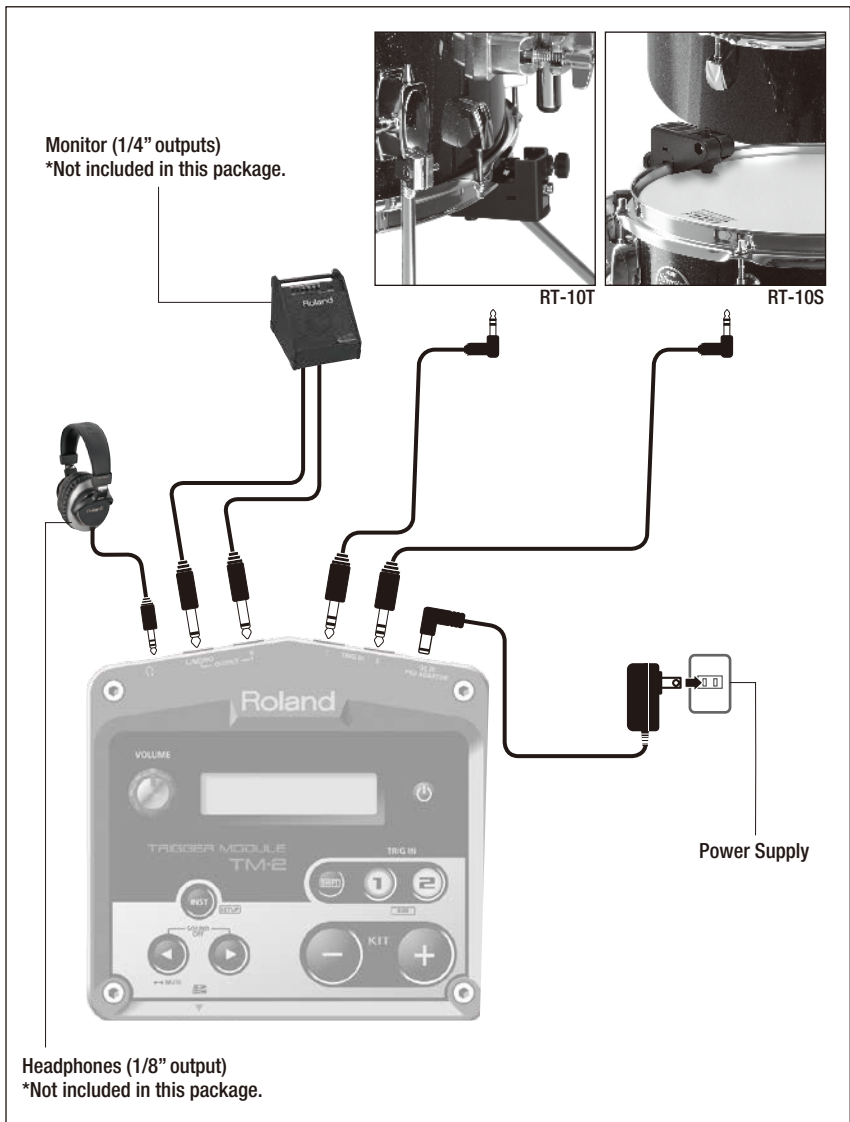

RT-10S → Snare Drum

Then, attach the TM-2 module to one of the connecting pipes, using the mounting plate and clamp. The clamp is included with the Cocktail-JAM drum kit.

### 3. Connecting the Module

Using the figure below for reference, connect the triggers, monitor, and power supply to the module. Make sure that the RT-10T on bass drum connects to "TRIG IN 1" and the RT-10S on snare drum connects to "TRIG IN 2".

### 4. Playing it with KIT No.51-60

Turn on the TM-2 module by pressing the Power Button. This module contains pre-programmed patches especially for the Cocktail-JAM drum kit. To access these, just choose a KIT from # 51 – 60 by pressing the “+” or “-” button. For more details, check the exclusive manual packed with the each component.  
\*CAUTION!!! The pre-programmed data will be erased by using the Factory Reset function.

## Pre-Programmed Setup for Silverstar “Cocktail-JAM” Hybrid Kit

TRIGGER SETUP				
	TRIG IN 1		TRIG IN 2
