

Litepanels Caliber 3-Light Kit™

Lightweight kit delivers the power of LED Fresnels to today's mobile user

The Litepanels Caliber 3-Light Kit is the portable, out-of-the-box lighting solution that today's professional videographers have been waiting for. Ideal for webcasting, blogging and professional content creators, the compact Caliber 3-Light Kit enables easy travel and fast setup.

The latest addition to Litepanels' award-winning line of LED Fresnels, the Caliber is a true Fresnel fixture with wide focus range that can be powered via AC or with AA batteries. Each fixture offers focusable output comparable to a 150W tungsten yet requires only 17W to power it. The fixture's compact size and high intensity output make it a valuable production tool in the field.

Weighing in at less than 13 pounds, each kit contains (3) Caliber fixtures, (3) AC Adapters with international plug sets, (3) multi-jointed flexible tripods, and a compact stand with stand adapter, offering additional placement options. Everything comes packaged in a fully customizable soft case, with plenty of additional storage space for batteries, camera lenses and other items.

CALIBER 3-LIGHT KIT ADVANTAGES

- Lightweight kit is ideal for location setups and travel
- Multi-jointed mounts allow the lights to be fixed in a number of positions
- A true Fresnel fixture that produces soft, directional illumination
- Flicker-free at any frame rate or shutter angle
- Ultra-smooth dimming from 100% to 0, with no noticeable color shift throughout the entire range
- Configurable soft case allows for easy customization
- Low power draw means the portable fixtures can run anywhere light is needed, on AA batteries or via AC (Fixture is 2x brighter when run on AC)
- 17W power draw with output comparable to a 150W Tungsten

The Litepanels Difference

Full spectrum quality soft light, with visually accurate color temperature
 The widest variety of LED fixtures available, with flexible AC or DC power options
 Smooth dimming from 100% to 0, with no noticeable color shift
 Flicker-free performance at any frame rate or shutter angle
 Controlled current and thermal management for long LED life
 Efficient power management delivers low power consumption and enhanced reliability
 Engineered and designed in Los Angeles, CA

Litepanels, a Vitec Group brand, was founded in 2001 by five professional gaffers and engineers who saw the future and pioneered LED (light emitting diode) lighting for motion pictures, television, and the audio-visual industry. Their Emmy® award-winning technology has now been used on thousands of productions worldwide and is trusted

by the world's leading broadcast organizations. Litepanels continues to expand its suite of flicker-free, color accurate, fully-dimmable soft lights that talent and lighting directors admire. These environmentally friendly fixtures can pay for themselves with power savings and long life, setting a new standard in professional lighting.
