

A/C/W Color Mixing with AnyFi™ Universal Wireless DMX

Searching for that special indoor rated LED par can that is totally bright, loaded with features, available in either black or white housing, and as quiet as a church mouse? Look no further than Colorise™ LED par cans!

Colorise™ Infiniwhite fixtures come fitted with 18* 5W high output 3-in-1 (Amber/White/Cool) white LEDs with a 25° beam angle, and also feature our new, built-in AnyFi™ wireless DMX receiver, which can flawlessly support both standard 2.4Ghz and W-DMX™ wireless DMX signal types for ultimate wireless DMX connectivity capability.

They also feature highly efficient, natural convection cooling thanks to their attractive cast aluminum housing with heat sink design. There are no internal cooling fans in these fixtures, which mean absolutely zero noise. Colorise™ Infiniwhite LED PAR cans are a great choice for any “sound-sensitive” environment.

Users can control Colorise™ Infiniwhite fixtures in master/slave using either 3/4 or 7-channels of DMX, and it has a well-structured, easy to navigate LED control panel menu with 4 electronically touch sensitive navigation buttons that make programming (and button pushing) a breeze!

There are 10 customizable color preset banks that can be programmed and saved, and then accessed individually via the control panel, or in DMX mode. Then, users can also program in and store up to 3 of their own 20 scene programs, which you can adjust the fade time, duration, strobe, and enable or disable the individual program scenes.

Some other notable features of Colorise™ Infiniwhite fixtures include the ability to mix any white color temperature from 2600k-7500k, variable electronic dimmer & strobe, menu key lock, flicker-free constant-current LED driver, 2 sound active modes (color and white strobe only), and 32-bit dimming curve settings for smoother (and slower) dimming capabilities.

Colorise™ Infiniwhite fixtures also come equipped with dual mounting brackets, industry standard PowerCON® compatible power input/output connections, 3-pin DMX in/out jacks, and are available in either black or white colored housing.

Main Features

- 18x 5W 3-in-1 A/C/W LEDs, 100,000 hours
- Built-in AnyFi™ wireless DMX receiver (user selectable 2.4Ghz or W-DMX™)
- Achieve white color temperatures from 2600k-7500k
- Natural convection cooled, totally silent operation
- User selectable 32-bit dimming curves
- Variable electronic dimmer strobe
- Built-in color & chase macros via DMX
- Built-in auto programs & sound active in standalone and M/S
- Color mixing ability in standalone mode
- 25 degree beam angle
- User selectable 3/4 or 7-channel DMX modes
- Flicker-free constant-current LED driver
- LED control panel with 4* touch sensitive buttons
- Automatic LED control panel button lock key
- 3-pin male input and 3-pin female output
- PowerCon™ compatible AC power In/Out connectors

COLORISE

Infiniwhite

AnyFi™

Power

- Voltage: 100-264VAC, 47-63 Hertz
- Power Consumption: TBA

Optical

- 18x 5W 3-in-1 A/C/W LEDs, 100,000 hours
- 25 degree beam angle

Thermal

- Max. Operating Temp.: 104 degrees F (40 degrees C) ambient

Control

- Protocol: USITT DMX-512
- DMX Channels: 3/4 or 7-channel
- Input: 3-pin XLR Male
- Output: 3-pin XLR Female
- Standalone, Master/Slave, Sound Active, Color Preset

AnyFi™ Wireless Receiver

- Frequency Hopping W-DMX™ Protocol
- 2.4Ghz ISM (2.402-2.48Ghz), 512 channels, 7 frequency groups
- Less Than 5ms Latency
- Receiver sensitivity: -94dBm

Weight & Dimensions

- Dimensions: 10.7" (272.1 mm) x 5.7" (144 mm) x 11.2 inches (284.1 mm)
- Weight: 11.5 lbs. (5.2 kg)

Warranty

- 2-year limited warranty, does not cover malfunction caused by damage to LEDs
