#### Extraordinary clarity and color

Suddenly, everything looks better. All of your existing sports, TV shows and movies are upscaled to super clear quality. Even YouTube® clips and smartphone videos are enhanced with stunning results. The X-Reality™ PRO picture engine analyzes and refines color, clarity and contrast in real time for a beautifully natural picture.

#### Dynamic contrast

Edge LED backlighting with frame dimming enhances brightness and contrast. Rather than illuminating the entire screen, contrast is boosted in just the right areas for a more realistic picture.

#### A smarter TV

The familiarity of Android™ comes to the biggest screen in your home, and it's so much more than just 'Smart TV.' It is apps, games, casting, voice search, and personalization powered by Android TV<sup>1,2</sup>.

#### More apps

The things you love doing on your tablet or smartphone can now be enjoyed on your TV. Log into your Google account once to access a huge collection of apps, games and content from Google Play™<sup>1,2</sup>.

#### Just say what you want

Say "action movies" or "today's weather" and let Android™ TV do the work. Voice search helps you quickly find what you want. Simply speak into the optional One-Flick remote or your compatible mobile phone<sup>2</sup>.

#### Google Cast ready

Google Cast™ is like having Chromecast built into the TV. Cast your favorite entertainment apps, including HBO GO, Showtime Anywhere, MLB.tv and more, from your Android or iOS device, Mac or Windows computer, or Chromebook to the TV<sup>2</sup>.

#### Your personalized TV

Choose the Android TV remote application or Sony's TV SideView application. Either way, you'll have control with voice search, a keyboard and quick access buttons to the most popular apps<sup>2</sup>.
