

ProPrompter Bluetooth Remote for iOS

QuickStart

Bluetooth pairing is required before the first usage with the remote.

1. Turn the power switch to the ON position
2. Press the Connect button (inside remote's keypad cover). The LED light will blink green indicating it is in pairing mode.
3. In your Apple device, go to Settings > General > Bluetooth and ensure that Bluetooth is on.
4. Select "Bluetooth Media Control & Camera Shutter Click" from the Devices list.
5. Your Apple device will display a message with a PIN code - enter this code on the remote's keypad and press Enter.
6. If pairing is successful, your Apple device will display "Connected" on the Bluetooth devices list.
7. Launch the ProPrompter Studio or ProPrompter app on your Apple device, tap a script to begin prompting and the remote will now control speed up/down, pause/resume, and cue fwd/back functions.
