

Motif Vignette™

Looking for an IP65 rated outdoor lighting fixture capable of making a statement with brilliant, richly mixed colors, and able to lighten the mood with a soft, gentle touch? You'll get that and a ton more with the Motif Vignette™, which comes fitted with 18x 10-watt high output Quad-Color RGBW LEDs with 25 degree beam angle, all housed in an attractive, 1-meter linear package!

It is the latest and greatest in the Motif™ series of IR remote controllable outdoor fixtures that offers everything the smaller Motif Sketch™, and Motif Fresco™ does, plus a whole lot more. Motif Vignette™ can be controlled by its own unique IR remote control (sold separately) that is simple to use and offers the exact same functionality of its LED control panel, with the addition of quick access shortcut buttons to auto mode and custom programs.

Without the optional IR remote, the Motif Vignette™ can be controlled via 10/7/5/4 or even just 3-channels of DMX, or directly with its easily accessible, easy-to-use LED control panel that is found right on the face of the unit under its water-tight tempered glass lens with 4* electronic touch sensitive menu buttons that really make programming (and button pushing) a breeze!

They also feature highly efficient, natural convection cooling thanks to their attractive cast aluminum housing with heat sink design. There are no internal cooling fans in these fixtures, which mean absolutely zero noise. Motif Vignette™ LED fixtures are a great choice for any "sound-sensitive" environment.

Some other remarkable features of Motif Vignette™ fixtures include their many built-in preset colors + white color temperature settings, variable electronic dimmer & strobe, menu key lock, flicker-free constant-current LED driver, color calibration settings, 5 built-in programs, 3 customizable programs, and 32-bit dimming curve settings for smoother (and slower) dimming capabilities.

Motif Vignette™ fixtures also come with dual mounting brackets, an IP rated AC power input cord with cable cap, 3-pin extended IP rated DMX in/out plugs, a set of IP rated DMX in/out cables, and are available in either black or white colored housing.

And of course, they are also backed by Blizzard's 2-year warranty!

Main Features

- Exceptional color mixing from 18x 10-watt Quad-Color LEDs
- Advanced heat sink design for zero fan noise
- Multiple built-in color presets and auto programs
- User adjustable program speed & fade times
- 0-100% variable electronic dimmer
- Variable electronic strobe
- Durable cast aluminum housing and mounting brackets
- Tempered glass lens and watertight internal gaskets
- Easy-to-use 4-button LED control panel menu
- Built like a rock (It hits the gym regularly)
- USITT DMX-512 (3/4/5/7 and 10-channels)
- 3-pin Input/Output
- Easy to use IR remote control (sold separately)

Luminous Intensity:

Lux / Meter	Red	Green	Blue	White
1M	1,700	1,615	1,660	1,466
2M	821	762	814	711

Power:

- Operating voltage: 100-264VAC, 50-60 Hertz
- Power Consumption 83W, .98A, PF: .68

Light Source:

- 18x 10-watt LEDs, 100,000 hours.

Optical:

- 25 degrees

Thermal:

- 104 degrees F (40 degrees C) ambient

Control:

- USITT DMX-512
- DMX channels 3/4/5/7 and 10-channels
- Input: 3-pin XLR Male
- Output: 3-pin XLR Female
- Operating Modes: DMX512, Master/Slave, Auto, Standalone

Weight and Dimensions:

- Width: 39.8 inches (1001 mm)
- Depth: 2.7 inches (68.8 mm)
- Height: 4 inches (100.1 mm)
- Weight: 9 lbs (4.1 kg)

Warranty

- 2-year limited warranty, does not cover malfunction caused by damage to LEDs
