

INSTRUCTION BOOK FOR
Drapery Surround

DA-LITE[®]

Instructions

1. Remove parts and drapery from case. Unfold the legs and lock the braces. Notes: The top section of the leg can remain folded if the total height is not that high (Figure 1 shows this folded; Figure 2 shows it unfolded). Also, if this is being used in the 90° mode only 3 legs are necessary, although all 4 can be used. (Figure 3 shows the braces locked on both skirt bars. If only 3 legs are used, the attachment bar can remain unfolded and out of the way.)
2. Unfold the skirt bar and lock the braces. Attach to the legs with speedy cranks at the necessary height. The height is adjustable from 37" to 73" in 6" increments. The red color code will be 37"; the green color code will be 73".
3. If using in the 90° mode, attach the angle attachment bracket to the skirt bars using speedy cranks.
4. Snap the drapery to the bar (if using less than the full height, the drapery should be tucked under carefully to retain a neat appearance at the legs). (Figure 4)
