GCS922U

# 2-Port USB DVI Cable KVM Switch

## 2-Port USB DVI Cable KVM Switch

IOGEAR's GCS922U simplifies the method of sharing two computers using one DVI monitor, keyboard and mouse. It has video resolution up to 1920 x 1200 @ 60Hz giving users excellent, crisp images on the screen every time. It supports USB hot-plugging, making it easy to add or remove USB computers connected to the KVM.

Users can easily access any of the connected computers via push button and with its stylish looks and no external power supply requirement the GCS922U is truely an out-of-the box plug and play solution to all your needs!

Great for a home office or small / medium size business with needs to consolidate workspace to streamline or develop efficient workstations to eliminate multiple desktop setups.
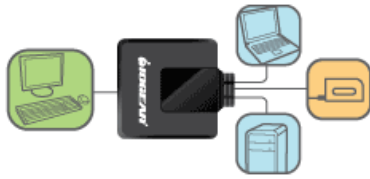

This 2-port KVM also offers a cost effective solution to increase security by allowing users to switch between the Internet connected PC and an Intranet connected PC.

- Connect and control two DVI-D USB 2.0 interface computers with a single keyboard and mouse
- Separate the Internet and Intranet with the click of a button
- USB mouse port can be used for USB peripheral sharing, such as external storage drive

- Computer Selection via push-button Remote Port Selector
- Video resolution – up to 1920 x 1200 @60Hz
- Supports USB hot-plugging
- Power supply not required

**IOGEAR**®

## How does it work?

- Connect your USB keyboard, USB mouse and DVI monitor to the KVM.
- Connect your computers to the KVM switch with the attached KVM cables and power on the computers.
- Press the remote button to swtich between computers.
