

JTouch Interactive Display

InFocus

Capacitive Touchscreen For K-12 Classrooms

Part #: INF6500e, INF6500eAG

Designed specifically for the unique needs of the K-12 classroom, the 65-inch InFocus JTouch interactive display, featuring cutting-edge touch technology, engages the entire class at a price that fits your school's budget. Simply connect your PC, Mac or Chromebook to create a bright, colorful, and interactive touch experience.

Key Features

- Big, bright display at an affordable price that's right for your school's budget
- 1080p resolution for crisp, vivid images that can be seen from anywhere in the classroom
- Display your notebook via HDMI or VGA & control it from the display via touch using a USB cable
- Run all your Windows, Mac or Chromebook apps, even older ones, with touch
- 10 point touchscreen for more real-time editing
- Sleek, bezel-less design
- No calibration or special stylus needed means it's quick and easy to use with just your fingertips
- Front-facing, 20-watt speakers for robust sound
- Optional anti-glare available with JTouch INF6500eAG model

Projected Capacitive Touch

The same ultra-responsive capacitive touch technology found in smartphones and tablets is available in the INF6500e, with more touch points for fingers.

- HDMI to quickly connect your notebook
- USB port for optional on-board PC
- Two-port USB hub syncs with your connected notebook
- USB to enable notebook touch control
