

## DMXPlayBack Remote

The recorders add-on

The show starts at the touch of a button

The DMXPlayBackRemote is an add-on for the DMXPlayBack Mk2 or DMXStreamer. It acts as a remote control to start one of twelve shows stored in memory.

The remote is connected to the DMXPlayBack Mk2 using a single DB9 cable. No power supply is needed. The cable can be up to 5 metres/15 feet long.

# DMXPlayBack Remote

## Start the show !

The DMXPlayBackRemote is a fool-proof interface to the DMXPlayBack Mk2 or DMXStreamer. You can label each switch for added simplicity.

There are no settings to change, just press the button and the show starts. Pressing another button will stop the current show and start the selected one, it's that easy !

## Many possibilities !

This unit is ideal for clients who would like to be able to "set it and forget it" after the show is programmed.

### ► Applications

- **Trade shows**
- **Conference rooms** : convention centres may choose new lighting schemes for different conferences
- **Shopping centres / Shop fronts** : shop owners may choose pre-recorded shows according to the appropriate holiday & program the required number of shows and let it run anytime
- **Bars** : let the bar man change the "mood" anytime without needing to fiddle with a console

### ► Features

- **Start or stop up to 12 different shows**
- **Does NOT require external power source**
- **Infrared port for control** with TV remote
- **Simple RS232 connection to master device** DMXPlayBack Mk2, DMXStreamer
- 6 switches and 1 shift key
- 6 opto-isolated screw terminal switch inputs at rear
- 2 LED status indicators

### ► Hardware

- 7 soft keys with LED indicator
- Robust metal case
- Standard half rack width

The DMXPlayBackRemote fits into a 9.5" 1-unit rack. It can be mounted next to a DMXPlayBack or a few meters away.

### Dimensions

H 44.5mm / W 191mm / D 58.75mm  
H 1.75" / W 7.53" / D 2.31"
