

ProMAX™

Stand-mounted Acoustical Panels

Features:

- ◆ Highly effective control of axial modes
- ◆ Reduce unwanted acoustical reflections
- ◆ Tame chaotic reverberation
- ◆ Flexible, portable absorption for professional & residential settings
- ◆ Our proprietary melamine-free formula is long-lasting & won't crumble like other brands

Auralex's new ProMAX™ is designed as a portable, lightweight, highly effective absorption treatment for run-and-gun recording and performance applications in the studio, on stage, classroom, in the home and more. The ProMAX™ can be implemented in any location where boundary-mounted acoustical treatments aren't feasible or desired.

"The portable, effective ProMAX is perfect for hi-fi, home theater, recording, industry, education and more."

ProMAX™

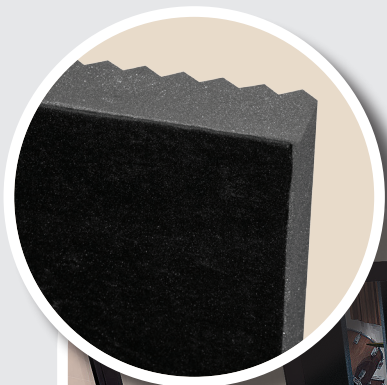

Stand-mounted Acoustical Panels

The **ProMAX™** stand-mounted acoustical panel from **Auralex®** is a completely portable and variable device that can be used in a variety of applications. The 2'x4'x3" **Studiofoam®** panels feature a cloth-wrapped, moderately reflective rear surface for acoustical variability when rotated. The **ProMAX** is perfect for professional studios, hi-fi listening rooms, offices, home

theater or anywhere portable sound control is needed. **ProMAX™** is the ideal solution for musicians working in rented spaces. By varying the quantity, orientation and spacing of multiple **ProMAXes**, you'll be able to dial in the desired amount of room ambience. The **ProMAX** is a flexible, expandable and affordable solution that's perfect for a variety of users and settings.

Key Features:

- ◆ Dial in the exact sound you desire
- ◆ Features absorptive and more-reflective sides for sonic variability
- ◆ Expand your ProMAX array as your needs change
